Changes for the CIIS 14.0 release

During the release of CIIS 14.0, the CDFI Fund has made minor updates and additions to the guidance documents as well as the TLR. These updates will help with the collection and accuracy of data.

Removed
- Project CIMS Code
- Investee CIMS Code
- Disbursements Tab

A new feature added to CIIS 14.0 is the Distribution report. All the information that was previously reported on the Disbursements tab of the TLR can now be found under the Distribution tab on the home screen of CIIS. The new Distribution report combines the Disbursements tab (TLR) and the QEI Distribution Table (question 13, ILR). This new report will help data become more consistent and allow for better accuracy of the information provided.

Date Formatting

Common Question: I have uploaded my file but it says that I have not provided a response for this date column/date column is in the incorrect format. I see my date entered, how do I fix it?

The most common fix is to make sure the date column is formatted correctly. When entering an answer into a cell that requires a date, make sure to format the cell as below. This can be done by right clicking on the cell(s). Although it may not fully appear as if it is in the correct format (March 3, 2014 will appear as 3/3/2014 as opposed to 03/3/2014), rest assured, this is correct.

Guidance for Calculating Jobs Projected/Actual Created or Maintained

The reporting organization should calculate or prorate the unique contribution of jobs created or maintained by the loans that they make based on the share that the loan constitutes of the given project or business operation.

Jobs and Business Loans. There are three broad categories of business loans:

- **Business Working Capital**: A loan or investment that will be used to cover any ongoing operating expenses of a business such as payroll, rent or utility expenses.
  - To calculate jobs supported or maintained by a working capital loan, the reporting organization should prorate the “jobs maintained” based on how much of the shortfall between current expenses and revenues for the business is covered by the loan or line of credit. For example the business has 12 FTEs employed throughout the year, and the working capital loan covers the equivalent of one month of expenses, so the net job effect is 1 FTE.

- **Business Fixed Asset**: A loan or investment that will be used to pay for any tangible property used in the operation of a business, but not expected to be consumed or converted into cash in the ordinary course of events. Commonly financed fixed assets include machinery and equipment, furniture and fixtures, and leasehold improvements.
  - No jobs should be reported for the purchase of fixed assets or equipment

- **Business Expansion or Startup**: A loan to support the expansion or startup of a business or develop a new product line or service.
  - To calculate jobs created or added, the reporting organization should estimate the total FTEs to be created or added and then prorate the job effect based on the share of the loan as part of the total business expansion financing package (i.e. as reported under the total project cost).

Micro-Loans. Micro-loan job impacts should be calculated by the same methods as indicated for business loans, although in general micro-loan impacts are generally sole-proprietors and most often are working capital loans. Thus, a working capital loan would often represent less than one FTE or “job year.” If one job is reported it is implied that this is a business expansion or start up loan that fully supports the operation for a year.

Construction Jobs. To calculate temporary construction jobs as FTEs, prorate the total employment to compute an annualized impact. For example, if a construction project takes 2 months to complete and employs 12 people full-time for that period, then it accounts for 2 annualized FTEs or “job years”. Alternately if the two month project employs various people for 10,000 hours of work, then divide by 1,820 (35 hours a week for a year) for 5.5 FTEs.
**Type of Jobs Reported**

**Full-Time Equivalent Jobs** - One FTE is a 35-hour or more work week.

## QALICB TYPE GUIDANCE

**Real Estate QALICB:** Financing provided to a Real Estate QALICB refers to entities whose predominant business activity (e.g. more than 50 percent of gross income) is the development (including construction of new facilities and rehabilitation/enhancement of existing facilities), management, or leasing of real estate that will be sold or leased to third parties.

**Non-Real Estate QALICB:** Transactions with QALICBs whose predominant business activity includes all other types of business activities other than those listed above should be classified as Non-Real Estate QALICBs regardless of: 1) how the business intends to use the proceeds of the transaction; or 2) whether the business intends to use any real estate owned as collateral for a loan.

**Special Purpose Entity QALICB:** Loans or investments made to a special purpose entity that is controlled by or under common control with an Operating Business, and that was set up specifically to lease the property back to the Operating Business such that the Operating Business is the principal user of the property, must be classified as a Special Purpose Entity QALICB. An Operating Business is considered the principal user of the QALICB’s property if it is the occupant of a majority (i.e., greater than 50%) of the rentable square footage of the QALICB’s property. The QALICB may lease the balance of its property to one or more third parties. The term “Operating Business” is defined in the glossary of the 2014 NMTC Allocation Application.

# Addresses Tab

The CDFI Fund requires that Organizations confirm that all addresses are geocodable in CIMS (the Fund’s CDFI Information and Mapping System) prior to reporting in CIIS. CIMS is available through the “Mapping” link in your organizations’ myCDFIFund account.

**FIPS Code** – refers to the 11-digit Federal Information Processing Standards codes. FIPS Codes must be provided if CIIS is unable to geocode an address. The FIPS Code is a combination of the State, County, and Tract Code. To find a FIPS Code visit [http://www.cdfifund.gov/what_we_do/mapping.asp](http://www.cdfifund.gov/what_we_do/mapping.asp).

The results of the geocode system display as:

When entered into CIIS, FIPS Codes should appear as: 11001010700

As of June 25, 2014, CIIS has updated with the most recent census data. Please use the most current census information when obtaining and reporting FIPS Codes.
