

# NMTC Qualified Equity Investment Report

The CDFI Fund is pleased to be able to make available on its website the New Markets Tax Credit (NMTC) Qualified Equity Investment (QEI) Issuance Report (Report). The Report provides information on each entity that has not finalized all of its NMTC allocations, and it identifies, among other things, the total allocation amount received by each entity; the dollar amount of allocation authority that has been issued to investors; the amount remaining to be issued to investors; and the predominant markets to be served by each entity. The Report does not include information on entities that have received NMTC allocations but already finalized their entire allocation.

Users may download this Report and use either the Find toolbar or the Search PDF window to locate a word, series of words, or partial word in the PDF document. Users may also find it useful to cross-reference this Report with the CDFI Fund's States Served map and reports. The States Served map and reports allow users to quickly identify Allocatees serving particular geographic areas of interest that users can then look-up in the QEI Issuance Report that lists Allocatees in alphabetical order.

The CDFI Fund, on a monthly basis, will update the QEI Issuance Report based on information reported by Allocatees. Annually, after the CDFI Fund completes its competitive review process and successful applicants are selected, the CDFI Fund will add those organizations selected to receive allocations of NMTCs to the Report.

*NOTES: Allocatee information reflects the most current information on file with the CDFI Fund as of the date reflected on the QEI Issuance Report. An Allocatee that appears with an Amount Remaining may have internally reserved all or a portion of its remaining QEI amount to fund an investment that has not yet closed. Please contact the Allocatee-identified Contact Person to obtain up-to-date information.*
