1.0 Introduction

The Community Development Financial Institutions (CDFI) Fund’s Awards Management Information System (AMIS) is an enterprise-wide awards management system that allows the CDFI Fund to manage the certifications and awards life-cycle processes without reliance on manual or paper-based methods. AMIS provides higher accuracy, transparency, and scalability to the CDFI Fund’s mission-critical processes across all CDFI Fund programs – CDFI, NACA, BEA, BGP, NMTC, CMF, SDLP, CDFI RRP, CDFI ERP and CDE and CDFI Certifications. AMIS runs on the Salesforce cloud-based Application platform. As an external user (i.e., CDFI Fund Applicant or recipient user), AMIS provides:

- Standardized and common data elements to enable Applicants and award/allocation recipients to use their information across programs
- A consistent flow of information from Applicants and award/allocation recipients to CDFI Fund staff, and vice versa
- A portal where Applicants and award/allocation recipients can: complete and submit Applications online; submit requests for funding, amendments, and payments requests online; and submit compliance reports online
- Interfaces with external systems, including Grants.gov and the CDFI Fund Information and Mapping System (CIMS).

2.0 CDFI Equitable Recovery Program (ERP) Overview

The CDFI Equitable Recovery Program (CDFI ERP) was authorized by Congress through the Consolidated Appropriations Act of 2021 to provide grants to CDFIs to respond to the economic impact of the COVID–19 pandemic. The objectives of the CDFI ERP are: 1) to provide funding to CDFIs to expand lending, grant making and investment activities in Low- or Moderate-Income communities and to borrowers, including minorities, that have significant unmet capital or financial services needs, and
were disproportionately impacted by the COVID-19 pandemic, and 2) to enable CDFIs to build organizational capacity and acquire technology, staff, and other tools necessary to accomplish the activities under a CDFI ERP Award.

The activities funded with a CDFI ERP Award will respond to economic impacts of the COVID-19 pandemic such as job loss; disruptions in health and mental healthcare; disruptions in childcare; increased housing instability; decreased availability of and increased cost of financing for affordable housing and home ownership; exacerbated inaccessibility to broadband internet; increased food insufficiency; disruptions in operations for small businesses, Small Farms and nonprofit organizations; and other negative impacts.

4. **Exit**: Use this button to Exit the Application **after** saving your work.

![Quick Links Menu Image]

*Figure 28 Quick Links Menu*
8.2 Using the Collapsible Menu

The menu on the left-hand side of the page displays the Table of Contents and will enable you to navigate to different sections of the Application. Use the vertical scroll bar to navigate within the Table of Contents.

![Collapsible Menu](image)

Click on the section title in the Table of Contents to expand and view subsections. This will display links to subsections below the section title in the Table of Contents bar.

![Subsection Links](image)
Clicking on a section title will also bring up a section introduction page in the interface to the right of the Table of Contents. This page will describe the section and include any important details, tips, and instructions the user may need before proceeding to the subsections.

To view a subsection, click on the hyperlink to the subsection title in the Table of Contents bar.

![Figure 31 Subsection Hyperlink](image)

The page for the subsection, including Application question and response fields, will be visible in the UI display to the right of the Table of Contents. Note that the gray bar at the top of the display lists the name of the Application, section, and subsection currently displayed.

![Figure 32 Application Heading Bar](image)
To navigate to another subsection, click on that subsection’s title.

If you are finished viewing an Application section and would like to minimize its list of subsections, simply click on the section title link in the Table of Contents again. Be sure to always **Save** any entries you have entered for a subsection before navigating away from the page.

**NOTE:** If you do not **SAVE** your work before navigating away from a subsection, you will lose your work. Always use the **Save** button before navigating away from a subsection to ensure your work is saved.

### 8.3 Saving and Completing a Section

When you click **Save** at the bottom of a subsection page, the Application will save your answers and run any validations configured for that subsection. You will receive an on-screen error message and guidance to remedy the error if your entries are incomplete or contain errors. After clicking **Save**, you can navigate away from the subsection and your answers will be saved.

To complete a subsection, fill in all necessary fields. All required questions are marked with a red asterisk *. 

![Figure 33 Required Fields Example](image-url)
At the bottom of the page, click the **Save** button.

![Save Button](image)

The Application will save all responses. If any of your responses are incomplete or contain errors, the subsection will not be marked complete. Any errors or guidance will be displayed in red. For example, a field left empty will display "**This response is required.**"

![Error from Field Left Blank Example](image)

Correct any errors and try to save again. When the subsection page is successfully marked complete, this message will appear at the top of the display in green, just below the gray bar with the name of the section and subsection you are viewing.

![Subsection Complete Example Message](image)

In the menu bar, a green checkmark will appear next to the saved and completed subsection.

![Saved and Completed Subsection Checkmark Example](image)

**8.4 Time Management**

You may save data, log out, and return to your Application at a later date. The electronic Application will automatically log you off after 2 hours of inactivity (i.e., no movement between screens). **If this happens, you will lose any data that you have entered and did not save.**
8.5 Bookmarks

If you need to flag a subsection to return to later, use the bookmark feature. When you click on any subsection, you will see the **Bookmark Subsection** checkbox visible in the upper-right of the display.

*Figure 38 Bookmark Example*

Click the checkbox to bookmark the subsection. A bookmark symbol will appear next to that subsection in the Table of Contents menu.

*Figure 39 Bookmark Symbol Example*
To remove a bookmark, uncheck the checkbox.

8.6 Help Text
Some questions will have Help Text that will provide additional online guidance. A question that has Help Text available will have a small circle with a question mark in it following the question text. It is recommended that Applicants read all Help Text.

Hover your cursor over the Help Text button to view guidance.

If Help Text is not provided for that question or if you need additional guidance, please see the FY 2022 CDFI ERP Application Instructions available on the CDFI Fund’s website.
9.0 User Interface Form Features

9.1 Validation Rules, Error Messages, and Guidance
There are validation rules associated with required fields and other information in the Application. When you **Save** a subsection, all validations will be executed. If errors are detected, you will see error messages displayed by the field that needs to be adjusted. Please follow all error message guidance accordingly.

Errors may range from entering an invalid value to omitting a required field. For example, in the Application Contacts subsection below, this field is required.

![Figure 42 Required Field Example](image-url)
If you click “Save” before you enter a response to these questions, you will receive an error message for the omitted required field(s).

Figure 43 Error Message Example

Required fields are easy to identify, but other fields that have validations are not always so obviously marked. Make sure to read the subsection guidance and use help text to understand question response requirements to avoid validation errors.

9.2 Dependent Questions and Subsections
Responses to some questions will trigger the applicability of other dependent questions or subsections. Be careful when changing responses to questions, since the answers you input in earlier subsections may affect dependent subsections that you will have to complete later in the Application.

**Dependent Questions**
A **Dependent Question** is triggered when your response to another question requires additional responses or explanation. Dependent Questions will appear on the same subsection page you are viewing once the dependent question is triggered.
For example, if you select “Yes” from the picklist in Q.12a, a dependent Question will appear.

![Figure 44 Dependent Question Example](image)

Many dependent questions require a narrative response. Please note that each narrative response field has an identified maximum character length. These character maximums include spaces, punctuation, line breaks, and special characters. Please note that word processing programs typically do not count line breaks as characters, but the template Application in AMIS will include line breaks in your total character count.

The text box will not allow you to exceed the maximum character limit. If you are copying a response from another source, please make sure you are within the character limit or the text box may truncate your response.
Dependent Subsections

A **Dependent Subsection** is a subsection that is enabled for you to complete based on your response to one or more questions in a different subsection. This feature is designed to make it easier for you to navigate the Application by hiding/disabling sections that do not apply to your organization. Note: You
may not see all subsections. To confirm that a subsection does not apply to your organization, please see the Application Instructions on the CDFI ERP webpage.

For example, your responses to the subsection ‘Q.7(a) - Assessment of the Economic Impact(s) of COVID-19’ enable a dependent subsection, Q.7(b), if you indicate ‘Other’ as your response.

![Figure 46 Dependent Subsection Example](image)

When the subsection is saved and marked complete, the response of “other” will enable the corresponding dependent subsection “Q.7(b) - Assessment of the Economic Impact(s) of COVID-19” to display and become visible in the Table of Contents.

![Figure 47 Dependent Subsection in Table of Contents Example](image)
It is important to complete the Application as ordered in the Table of Contents because questions like these that appear in earlier sections may enable dependent subsections to appear that you will need to complete in order to submit your Application.

9.3 Selecting Related Records
The Application uses records associated with your organization in AMIS to help you populate information in certain fields, such as information about Application Points of Contact.

To select related records:

1. Related record fields display a list of relevant related records for your organization that are available for this question when you click on the field.

2. You can view the selected record’s detail page by clicking the **View Record** link. This will direct you to the record detail page, where you can see more detailed information about the selected record.

9.4 Adding Attachments
Attachments can be uploaded using the Drag & Drop. You will see the Drag & Drop box below any question that requires an attachment.
To upload using the Drag & Drop:

1. Locate the file you wish to upload on your computer. Open the folder where the file is saved in File Explorer.

2. Return to the Application page. Using your cursor, drag the file you want to upload from File Explorer to the Drag & Drop upload box on the Application.
Note: Use caution to ensure you drag and drop the file directly over the Drag & Drop upload box area to prevent your web browser from inadvertently trying to open the file.

3. Once your file is successfully uploaded, the file name will be displayed below the Drag & Drop box.
4. Upload any additional files using the same process. If you need to remove an uploaded file, click the gray “x” next to the file name.

9.5 Dynamic Record Entry Tables
Applicants are required to enter Key Personnel and, if applicable, a list of issues related to a Statement in Lieu of Management Letter as part of the Application. These records are a series of questions that are repeated to the Applicant and are collected dynamically through the Application. An Applicant may need to add a single record or multiple records, depending on the Application question.

You will recognize dynamic record tables by the page setup. When you open a new subsection with one of these tables, a reminder message and an empty overview table will be displayed below the table instructions at the top of the page. As you add records to the table, they will appear in the table overview section.
Directly below the table overview is the field entry form. Data is entered into this form and saved to create a single record row in the table. Additional rows are created by selecting the “Add Row” link and populating the fields with new data and saving the form again.
9.6 Direct-Entry Tables

Direct-entry tables are configured to collect specific data directly from users. Unlike dynamic record tables, direct-entry tables allow you to input your data directly into the table.

In the sample table above, you can see that a direct-entry table simply allows you to enter multiple responses (in columns) to multiple questions (in rows) at the same time.

If the number of columns exceeds the standard screen format, the slide bar at the bottom of the table itself (not the bottom of the browser window) will allow you to access the columns to the right.

If using the Tab key during data entry, please note the Tab key moves the cursor to the field in the column to the right.

If you are unable to see the full table in the screen and need to scroll down the table, the table header will cascade down the table with you.
9.7 Exporting your Application as a PDF

The Application can generate an Adobe PDF version of your Application for your organization’s records. You can also use this feature to view your current progress on the Application at any point in the Application process.

To generate a PDF version of the Application:

1. Navigate to the stationary menu bar at the top of the Application.
2. Select View PDF.

![View PDF Button]

*Figure 57 Application Quick Links - View PDF*

3. This will open a PDF of the Application and your responses in a new window. Your browser’s PDF viewer will have a button (usually an arrow as highlighted in the example below) that will allow you to download and save the PDF.

![ERP Application PDF]

*Figure 58 ERP Application PDF*

9.8 Saving your Application Progress

You may save your progress at any point during the completion process. Clicking the ‘Save’ button located at the end of each subsection will ensure that your most recent changes/inputs have been recorded.
NOTE: If you experience elongated wait times during the saving process, it is recommended to refresh the page or re-launch the Application.

10.1 Attach SF-424

All Applicants are required to submit the initial component of their FY 2022 ERP Application using the Grants.gov portal, the official website for federal grant information and Applications. The only component of the CDFI ERP Application submitted via Grants.gov is the Standard Form (SF-424) Mandatory Form. The SF-424 is required for all Applicants.

The registration for Grants.gov and the processing time needed to review your SF-424 submission will take several days so it is recommended that Applicants begin this process before they start their Application in AMIS.

Once your SF-424 is validated by Grants.gov, a record for your SF-424 will be generated in AMIS. You will need to link your SF-424 record to your CDFI ERP Application in the Application UI.
Navigate to the “Attach SF-424” section header in the Table of Contents and click on the SF-424 subsection link. The SF-424 subsection will display a single related record question. Click in the gray “Search Records” box and begin typing the word “Grant”. SF-424 records associated with your organization will appear in the related record list. If you have submitted multiple SF-424s in Grants.gov, please select the correct SF-424 by referencing the SF-424 ID (the digits following “Grant”). If your SF-424 does not appear, please contact the CMF Team by submitting a Service Request. Once you select an SF-424 record, click Save.

10.2 Applicant Eligibility

Complete all table entries. Each entry must be numeric.

13.2 Table E: Projected Increase in Activities in CDFI ERP-Eligible Geographies

Table E will appear only if the Applicant selects the policy priority listed in Q.12e, to increase its dollar volume of Financial Products closed and Grants made in ERP-Eligible Geographies over the five-year Period of Performance by a multiplier.

![Table E: Projected Increase in Activities in ERP-Eligible...](image1)

**Example:** In its past five historic fiscal years, an Applicant has closed a total of $10 million in Financial Products in ERP-Eligible Geographies. It is requesting a $7 million dollar CDFI ERP Award. Over the next five years, it projects to close $22 million in Financial Products in ERP-Eligible Geographies. The increase multiplier calculated by dividing the dollar amount of the proposed increase by the dollar amount of the CDFI ERP Award requested. In this example, the Applicant is proposing to increase its dollar volume of lending by $12 million with a $7 million CDFI ERP Award. Thus, the multiplier would be $1.7 ($12 MM/$7 MM).

16.0 Appendix 6: Application Financial Data Inputs

Overview
Appendix 6 includes all required Application Financial Data input fields organized by Institution Type:

Applicants are required to enter financial data for the three most recent historic fiscal years, the current fiscal year, and three projected fiscal years. Only fields required of your organization, based on your organization’s Financial Institution Type as defined in AMIS ((a) Non-Regulated, (b) Credit Union,
or (c) Bank) are visible in AMIS. For additional guidance on required Application Financial Data, please refer to the CDFI ERP Application Instructions located on the ERP page of the CDFI Fund’s website.

For convenience, the CDFI Fund has also provided a blank Excel workbook entitled “Application Financial Data Inputs Workbook” that can be used by Applicants to gather all required Application Financial Data offline before entering it into AMIS. This Workbook is also located on the ERP page of the CDFI Fund’s website.

Note that each Application Financial Data input field is required in AMIS and you will not be able complete the Application Financial Data subsection or submit your Application until all fields are populated with a numeric value greater than or equal to zero (“≥ 0”).

**Note:** For any item that is listed where your organization has no data, you must enter the number zero (“0”). AMIS will return a red error message if the required response to a field is not provided.

All numbers related to an Applicant’s equity and loan portfolios must be entered as a positive whole integer, greater or equal to zero (“≥ 0”). This includes the line item for “Allowance for Loan and Lease Losses” (ALLL) listed under the “Assets” grouping on the Application Financial Data Input page. Auditors commonly express ALLL as a contra asset and present it as a negative number on audited financial statements. In such instances, where ALLL is a negative number on an Applicant’s financial statements, the Applicant must convert this number to its absolute value (a positive number), and enter this positive number in the Application Financial Data inputs subsection for the ALLL line item. In instances other than line items related to the Applicant’s equity and loan portfolios where the Applicant has a negative value expressed on its Audit or internal financial statements, Applicants are to enter a zero (“0”) on the corresponding line item on the Application Financial Data inputs page. Applicants who need to enter a “0” instead of a negative number(s) are to provide an explanation of each of these entries in the question response box for Q.16b.

**NOTE:** The table below is representative of the Financial Data Inputs Table for Non-Regulated Applicants. Credit Union Applicants and Bank/Bank Holding Company Applicants with be required to complete a similar table.
### Financial Data Inputs for Non-Regulated Applicants

**Note about Current Year Financial Statements:** If available, provide audited financial statements for your organization’s current year. If audited financial statements are not available for your current year, provide unaudited financial statements.

**Note for Non-Regulated Applicants with Consolidated Financial Statements:** Non-Regulated Applicants with consolidated statements should use the consolidated information of the Applicant that will expend and carry out the activities of the CDRI ERP Award when completing the Application Financial Data section. The data entered should reflect the financial position of the Applicant, excluding Affiliates or Subsidiaries.

**Note about On-Balance Sheet Loans:** Loans that an Applicant may have originated, but then sold or participated out (i.e. “sold but serviced”) are not to be counted in the “total on-balance sheet loans.” Only the amount of the Applicant’s capital that is at risk is to be included in the On-Balance Sheet Loan entry.

**Note about Loan Portfolio and Equity Investment Information:** All Application Financial Data input fields in the Loan Portfolio and Equity Portfolio groupings of the Application Financial Data inputs should reflect the Applicant’s entire Loan Portfolio and Equity Portfolio.

**Figure 116 Financial Inputs Table**

Updated: 7.15.2022
Table:
The Fiscal Year Selection row is automatically populated based on 1) the Fiscal Year End field on your Organization Record in AMIS, and, 2) for organizations with a 3/31 Fiscal Year End, your response to ERP Program Eligibility question #3, “Has your organization completed its Audit or Final Call Report for the fiscal year that ends 3/31/2022 as defined in the applicable NOFA?”

Enter the amount/number in the fields within the Application Financial Data subsection. Each field in this subsection has an error check in place to ensure data quality.

Note: This table is designed with a cascading column and row header to aid data entry. Due to the size of this table, you may experience a lag in header movement. If the moving headers are moving slowly or not at all, please try the following troubleshooting tactics:
- Scroll to the bottom of the subsection and click Save to record any data you have already entered. Then, refresh the application page.
- Try scrolling more slowly down or across the page.
- After saving the subsection, click the Exit button in the upper right-hand corner of the page to exit the application. Then, re-open the application and re-load this subsection.
- If possible, try opening the application in a different web browser or with a different internet connection.
- Try zooming out within your browser window so that more of the table is visible.
17.0 Appendix 7: Compliance Evaluation Questions

17.1 Compliance Questions

Reponses are required to all Compliance Questions.
Some question responses may trigger a justification to provide more context for your response. In such instances, a new mandatory text entry box, as marked with an *, will appear directly beneath the question asking you to “Please provide an explanation.”
Note: C5.1, C5.2, C6.1, C7.1 and/or C.16.1 are conditionally required. These questions are only applicable and triggered to be viewable in AMIS based on an Applicant’s response to a preceding question, and thus not all questions apply, or are visible, to all applicants. If “No” is selected in response to these questions, you will NOT be prompted with an explanation textbox directly below the question. You will be instructed to “(Provide explanation in the “Conditionally Required Responses” text box at the bottom of this page.)” and you will need to provide your explanation to these questions at the end of the subsection (at the very bottom of the page) in a large 5,000 character limit textbox entitled, “If your answers to Compliance Questions C5.1, C5.2, C6.1, C7.1 and/or C16.1 above require additional explanation or context, please provide response(s) below.”

Note: To view the complete list of Compliance Questions and answer options, see the ERP Application Instruction Guide.

**NOTE:** If YES to any of the above questions, attach a detailed description of each action, clearly identifying the category in which the action falls.

As stated in 12 CFR 1815.105, if the CDFI Fund determines that the Application proposes actions which require an environmental assessment or an environmental impact statement, any approval and funding of the Application will be contingent upon:

1. The Applicant supplying to the CDFI Fund all information necessary for the CDFI Fund to perform or have performed any required environmental review;
2. The Applicant not using any CDFI Fund Financial Assistance to perform any of the proposed actions in the Application requiring an environmental review until approval is received from the CDFI Fund; and
3. The outcome of the required environmental review.

In addition, as stated in 12 CFR 1815.106, if the CDFI Fund determines that an Application, or any part thereof, is not sufficiently definite to perform a meaningful environmental review prior to approval of the Application, final approval and funding of the Application shall require supplemental environmental review prior to the taking of any action directly using CDFI Fund Financial Assistance for any action that is not a categorical exclusion.

19.0 Appendix 9: Financial Attachments

This subsection is applicable to both Regulated and Non-Regulated Applicants. Regulated Applicants will see a subsection called “Call Reports” whereas Non-Regulated Applicants will see a subsection called “Financial Attachments”.

**Regulated Applicants**

Regulated Applicants must attach Year-end Call reports for their three most recent historic fiscal years.
Use the drag and drop upload field to provide all required Attachments. Please be aware of the validations for the full set of attachments for which error messages may be generated.

**Non-Regulated Applicants**

Non-Regulated Applicants must attach Audited Financial Statements for their two most recent historic fiscal years, as well as current year-to-date unaudited internally-prepared financial statements. If the audit for the Applicant’s most recent historic fiscal year is not complete as of the due date of the AMIS Application, the Applicant must attach audited financial statements for its two historic fiscal years prior to the most recent historic fiscal year, as well as current year-to-date unaudited internally-prepared financial statements. In this case, do not attach unaudited internally-prepared financial statements for the most recent historic fiscal year. If the CDFI Fund needs this information during the review process, it reserves the right to request it.
Figure 133 Non-Regulated Applicants Additional Attachments

Use the drag and drop upload field to provide all required Attachments. Please be aware of the validations for the full set of attachments for which error messages may be generated.

If the Applicant has additional items to report, then select 3.3.b and the Statement in Lieu of Management Letter 3.3.b subsection will appear.
Click **New Row** and fill in the following fields. It is recommended but not required to give the issue a name (question 1).

Once you are done, click **Save**. You also have the option to download the Comma Separated Values File (CSV File) or to delete the record at the bottom of the page.
20.0 Attestation and Submission

The final step to the Application process is the Attestation and Submission of the Application. All subsections must be marked complete in order for you to submit your Application. To check which subsections have been marked complete, look for a green checkmark next to that subsection on the menu bar. Subsections that are incomplete will not have a checkmark and will prevent you from successfully submitting the Application.

**You will not be able to submit an Application until all items are marked complete.**

If you attempt to submit your Application before all subsections are complete, you will receive error messages identifying which subsections remain incomplete or contain validation errors. Correct these subsections before trying to re-submit your Application.

When you are ready to submit your Application:

1. Navigate to the Attestation and Submission subsection and review the terms.
2. Click the check box to agree to the terms.
3. Click the ‘Submit Application’ button.
4. A popup window will appear confirming your intent to submit. Click the ‘Submit Application’ button.
You will receive an email confirming that your Application has been submitted including the text of the Authorized Representative’s attestation for reference.
