- Economic Development Activities designed to stabilize and/or revitalize Areas of Economic Distress such as renovated buildings that will house neighborhood businesses and Community Service Facilities.

CMF History and Funding

- CMF was established through the Housing and Economic Recovery Act (HERA) of 2008 (Public Law 110-289, section 1131).
- The source of funding for CMF comes from allocations from the government-sponsored enterprises (GSEs) – Fannie Mae and Freddie Mac.
- Prior CMF rounds were conducted in FY 2010 and in every year from FY 2016 to FY 2021.
- The FY 2023 round will be the eighth CMF funding round.

- All Applicants must submit audited financial statements for its two most recent historic fiscal years as of the date of the NOFA.

Additional Eligibility Requirements

Certified CDFIs and qualified Nonprofit Organizations that are NOT eligible for a CMF Award:

- Any 501(c)(4) organization that engages in lobbying activities.
- Any Applicant that has defaulted on a CDFI Fund loan within five years of the AMIS Application deadline.
- Any Applicant that is non-compliant or in default of prior CDFI Fund awards, if, as of the date of the AMIS Application deadline:

 - The CDFI Fund has provided written notification that such entity, or any of its Affiliates, is ineligible to apply for or receive any CDFI Fund awards during this funding round.

Two Approaches for CMF Applicants

Eligibility Types:

Certified CDFIs

Eligible Nonprofits

Entity Approaches:

Financing Entity Approach

Affordable Housing
Developers/Managers Approach

- All Applicants (CDFIs and Nonprofits) will be able to select whether they are applying using a financing Entity Approach or an affordable housing developer/manager Entity Approach.
- The CDFI Fund has prepared two versions of this presentation, one that focuses on Applicants with a financing Entity Approach in Section 5, and one that focuses on Applicants with an affordable housing developers/managers Entity Approach in Section 5.

Which CMF Application Approach to Use?

Each approach is defined in the NOFA and Application:

- **Financing Entity Approach** should be selected by Applicants that intend to use the CMF Award to make arms-length loans and equity investments to individuals, families, and project-sponsors for affordable housing and community or economic development.
- **Affordable Housing Developers/Managers Approach** should be selected by Applicants who have the construction, development, redevelopment, preservation, or management of affordable housing as a predominant purpose.
 - An affordable housing developer/manager may own the housing that is developed, may own it in part such as in a limited partnership, may sell the housing it develops once completed if single family housing, or may sell and continue to manage the housing if rental housing.

Which CMF Application Approach to Use?

- Applicants should choose their Entity Approach based on the **track record and proposed capacity** in which it will be acting in implementing the award.
- Applicants will be evaluated based on the entity approach selected.
 - For example, a CDFI that selects financing entity approach will be evaluated on its financing track record, and vice versa.
 - Most CDFIs should not select a developer/manager approach; however, CDFIs or Nonprofits that intend to act as an affordable housing developer to execute the CMF Award and have a track record as such, may select the affordable housing developer/manager approach.
- In AMIS, confirm that the “Entity Approach” field in the Program Profile Section is correct before creating a CMF Application.

General CMF Requirements and Limitations

- The minimum Award request is \$500,000.
- By statute, the maximum Award amount is 15% of the total CMF amount available for the FY 2023 round
 - In past rounds, the CDFI Fund has typically provided awards significantly smaller than the statutory cap. For example, in the last three funding rounds, Awards ranged from \$633,750 to \$12,000,000, with an average Award of \$4.4 million.
- **CMF Recipients are required to leverage their CMF Award at a ratio of at least ten to one.**
- Each CMF Award must result in Eligible Project Costs (CMF Award dollars plus Leveraged Costs) in an amount that equals at least 10 times the amount of the CMF Award.
 - For example, if the Applicant is requesting a \$1 million award, it would need to leverage another \$9 million, resulting in \$10 million of Eligible Project Costs.

Private and Public Leverage Sources

- Sources of capital leveraged by the CMF Award may be loans from banks, program-related investments from foundations, Low Income Housing Tax Credit (LIHTC) investments, funds contributed by the Recipient, state or local government, or any number of other private or public sources.
- **Public sources** of leverage are typically grants, loans, or awards made to the Applicant or Projects with funds that are allocated by federal, State, or local governments.
 - Please note that costs financed/supported by the Recipient’s award or allocation from another CDFI Fund program cannot be counted as Leveraged Costs for the CMF Award.
- **Private sources** of leverage generally refer to investments or loans from private third-party entities. Examples include:
 - Private activity bonds
 - LIHTC equity and other equity investments
 - Lines of credit, loans, or other investments that are made to the Applicant or Projects from private sources, such as banks, private investors, or philanthropic entities.
 - For a regulated depository institution, deposits are also considered private.

Three Ways to Leverage CMF

1) Enterprise-Level Leverage: Capital earned, borrowed, or raised by the Applicant which is designated for the Applicant's use and ultimately used to pay for Leveraged Costs, but is not initially restricted for use for specific properties at the time it is earned, borrowed, or raised. Enterprise-Level Leverage can be either private or public. Examples:

- Program-Related Investments (PRIs),
- Loans from third parties,
- An organization's own contributed capital (equity or retained earnings).

2) Project-Level Leverage: Capital raised or earned that is restricted to a specific project at the time it is raised that will be used to pay Leveraged Costs. Examples:

- Mortgages secured by the property
- Proceeds from the sale of bonds
- Equity investment raised through LIHTC
- Deferred developer fees
- Loans and grants from local and state government made directly to a Project

Three Ways to Leverage CMF (continued)

3) Reinvestment Level: Re-deploying repaid proceeds of CMF Award dollars and/or Enterprise-Level Capital during the five-year Investment Period.

- Recipients have the option to count reinvestment leverage to meet their total leverage multiplier. However, there is no requirement to use a reinvestment strategy to reach your leverage goals.
- Reinvestment of CMF principal and/or equity repayments (Program Income) into eligible activities is required during the five-year Investment Period.
- Only include projected reinvestment for Projects that will be completed within the five-year Investment Period.
- If your business strategy will generate CMF Program Income during the five-year Investment Period for which you plan to reinvest and count as leverage, you should note that in your Application. This may be the case when a CMF Award is used for short-term financing needs, such as predevelopment, and will be repaid during the Investment Period and redeployed to another Project.

Investing in Affordable Housing

- The primary objective of the Capital Magnet Fund (CMF) is to finance Affordable Housing.
- CMF Awards may be used to finance both rental and Homeownership Affordable Housing.
- Rental housing may be multifamily (5+ units) or single family, and while most rental housing is developed as one property, scattered site development is permitted.
- Homeownership is usually single-family housing (4 or less units). This may include single family-detached, condominium, co-operative, and manufactured housing.

Eligible Activities Supported by CMF

CMF Awards are used to finance and support Affordable Housing Activities and/or Economic Development Activities through the following eligible activities:

- To capitalize Loan Loss Reserves;
- To capitalize a Revolving Loan Fund;
- To capitalize an Affordable Housing Fund;
- To capitalize a fund to support Economic Development Activities;
- For make Risk-Sharing Loans;
- To provide Loan Guarantees; and
- For Direct Administrative Expenses (no more than 5%).

Source: CMF Interim Rule (as amended February 8, 2016; 12 CFR Part 1807).

Example Uses of CMF Award

- For example, some Recipients use their CMF Award to make direct mortgage loans, purchase homes in order to sell them to qualified home buyers, or to establish a Loan Loss Reserve for loans they have made using their own capital.

What is an Economic Development Activity?

- An Eligible Economic Development Activity (EDA) is the development, rehabilitation, preservation, or acquisition of physical structures that house Community Service Facilities (e.g. daycare centers or health clinics) or neighborhood-based businesses (e.g. revitalization of a commercial block).
- EDA must be undertaken “In Conjunction With” Affordable Housing.
- EDA must be part of a Concerted Strategy, i.e. a plan adopted by a local jurisdiction or the State.
- Recipients may spend no more than 30% of their CMF Award on EDA and must request this as part of their Application.
- Some examples resulting from Economic Development Activities include: day care centers and schools, grocery stores, health clinics, rehabilitation of dilapidated commercial property, and/or community centers. Restrictions:
 - Providing loans to businesses is not an eligible EDA.
 - A facility that is part of a residential property and limited only to those residents, rather than the broader neighborhood (e.g. a fitness center in an Affordable Housing development) is not considered an eligible EDA.

Requirements for Affordability

Income Limits (Eligible-Income): The maximum income level for a Family may not exceed 120% of AMI for units financed with Eligible Project Costs.

Percentage of Costs: 100% of the total Eligible Project Costs (EPCs) must be attributable to units that are restricted to Families at incomes of 120% AMI and below. Greater than 50% of the EPCs must be attributable to units that serve Low-, Very Low- and Extremely Low-Income Families (80% AMI and below).

Project Level: To qualify as Affordable Housing, at least 20% of units in each Multi-family Rental Project must be affordable to and occupied by Low-Income Families (80% AMI and below).

Portfolio Level: Applicants will indicate the percentage and the income levels they intend to serve in their Application and will be held to that if selected for an Award. However, this is measured portfolio-wide across all projects financed with a CMF Award and not project-by-project.

- Committing to a greater percentage of units for Low-Income Families for Homeownership and/or Very-Low Income Families for Rental is encouraged.

Requirements for Affordability

Long-Term Restrictions: Each Project funded must ensure affordability for at least 10 years.

- For ***Rental Housing***, this is accomplished through deed restrictions, land covenants, or other mechanisms which survive sale and transfer, during the Affordability Period.
- For ***Homeownership***, the Recipient must develop its own plan for achieving this 10-year affordability in the event of resale.

Rents: Rents control affordability. Rents are set using a formula similar to that used for Low Income Housing Tax Credits (LIHTC). Refer to 12 C.F.R. 1807.401 of the CMF Interim Rule for additional information.

Homeownership Cost Limits: The purchase price limits for Homeownership are capped at 95% of the median purchase price for the area, as determined by HUD.

Combining CMF Awards with other CDFI Fund Awards/Allocations

- A CMF Recipient that has awards/allocations from other CDFI Fund programs may use a combination of the CMF Award and those other awards for the same property only in different phases of the Project's development.
- The phases are defined as 1) predevelopment; 2) acquisition; 3) site work (preconstruction); 4) construction/rehabilitation; 5) permanent financing; 6) bridge financing between two or more phases.
- Costs financed by awards from other CDFI Fund programs may not be counted as Leveraged Costs.
- Award funds received under any CDFI Fund program may not be used to pay principal, interest, or other costs related to the CDFI Bond Guarantee Program.
- See Part II.C of the NOFA for additional requirements related to multiple CMF Awards.
