

CAPACITY BUILDING INITIATIVE

HANDS-ON

Training For Stronger, More Robust **CDFIS**

The Community Development Financial Institutions Fund (CDFI Fund) created the Capacity Building Initiative to help Community Development Financial Institutions (CDFIs) improve their ability to deliver financial products and services to economically underserved communities. Capacity building—increasing an organization’s ability to operate effectively—is critical to the success of these community-based affordable lenders, and the people who depend on them. In recognition of its importance, and with input from CDFIs on the frontlines, the CDFI Fund champions capacity building in support of the burgeoning industry’s growth and development.

HOW DOES THE CAPACITY BUILDING INITIATIVE BENEFIT CDFIS?

CDFIs can access free training workshops, webinars, market research, customized technical assistance, and informational resources to help them develop, diversify, and grow.

CDFIs can use the assistance to:

The CDFI Fund also offers a highly-specialized Resource Bank on its website, www.cdfifund.gov/cbi, to provide additional reference materials to the CDFI industry on some of the training topics.
