SECTION 1.0 - REQUIRED SOFT/HARDWARE AND GETTING STARTED

1.1 Required Software and Hardware

To use the electronic *Allocation Application*, you will need a computer system that can run the software listed below:

- The AMIS electronic application can run on any computer with an Internet connection and we recommend the browsers Google Chrome or Microsoft Internet Explorer.
 - Chrome applies updates automatically. We make every effort to test and support the most recent version. There are no configuration recommendations for Chrome.
 - If you use Internet Explorer, we recommend using Microsoft Internet Explorer 11 or higher. Apply all Microsoft software updates.

<u>TIP:</u> Start completing the electronic application early. The CDFI Fund <u>will not</u> grant extensions to individual organizations experiencing technology problems or to organizations unable to submit due to system slowdowns near the application submission deadline. Discovering technology issues early will allow the CDFI Fund to assist organizations in completing the application process by the deadline.

1.2 Getting Started

Access the pdf format *Allocation Application* found on the CDFI Fund's website at http://www.cdfifund.gov/nmtc. Scroll down to "How to Apply Step 2," use the document as a guide for the information needed to complete the electronic application. Gather appropriate application documents and data prior to starting the electronic *Allocation Application*.

SECTION 2.0 - GETTING HELP

For <u>programmatic questions</u> about the contents of the *Allocation Application*, an AMIS Service Request is the preferred method. In the Service Request form, select "General Inquiry" as the Record Type and "NMTC-Application" for the Type. Additionally, you may contact the CDFI Fund at:

If you require <u>information technology assistance</u> in using the electronic *Allocation Application*, please submit an AMIS Service Request (set the Record Type to "General Inquiry" and the Type to "NMTC – AMIS technical Problem"). Use of AMIS Service Requests is the best method to submit and track your request. You may also call (202) 653-0422 or e-mail AMIS@cdfi.treas.gov.

The CDFI Fund will provide programmatic and information technology support related to the Allocation Application between 9:00 am and 5:00 pm, Eastern Daylight Time, through June 19, 2018. The CDFI Fund will <u>not</u> respond to phone calls or emails concerning the *Allocation Application* that are received after 5:00 pm, Eastern Daylight Time, on Thursday, October 24, 2019, until after the *Allocation Application* deadline specified in the NMTC FAQ document.

<u>TIP:</u> The CDFI Fund recommends that you prepare as if the application due date is October 17, 2019. Thus, if you have any questions (technological or otherwise) regarding the submission of your application, the CDFI Fund can help you resolve outstanding issues prior to the application deadline.

SECTION 3.0 - LOGGING ON

3.1 Accessing CDFI Fund's Awards Management Information System

NMTC Application UI Home Page

The header includes:

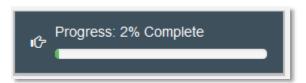

1. Control Number: The system-generated number assigned to your application.

2. Due Date: The date and time when the application must be submitted.

3. Remaining Time: A countdown feature that displays how much time is left to work on the application before the due date.

4. Progress Bar: Keeps track of your progress as you complete portions of the application.

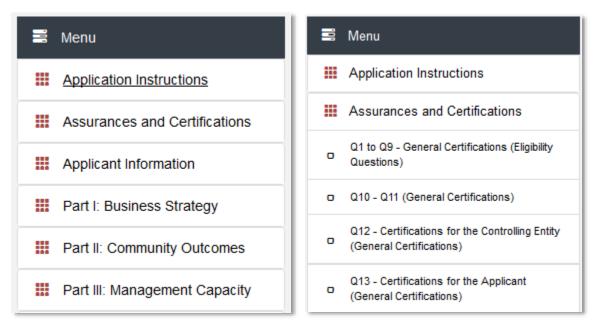

5. Organization: A hyperlink to your Organization's detail page. When you click this link, it will return you to your organization record in a new window.

- 6. View PDF: An option to export and view the application as a PDF file. The PDF prints the current state of the application. If blank, it will show application guidance, questions, and tables. Once responses are entered into the application, the PDF will also include responses.
- 7. User: Name of user profile currently editing the application.
- 8. Exit: Use this button to Exit the application **after** saving your work.

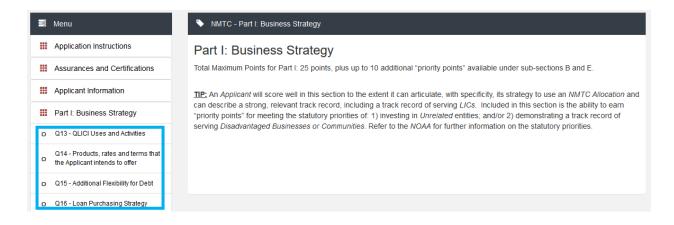

4.2 Using the Collapsible Menu

The menu on the left-hand side of the page will allow you to navigate to different sections of the application.

Collapsible Menu- Collapsed and Expanded

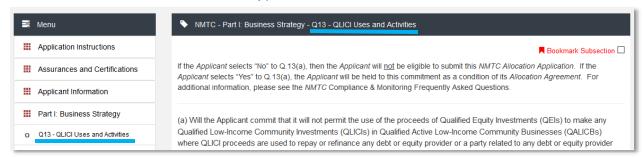

Click on the section title in the menu to expand and view subsections. This will display links to subsections below the section title in the menu bar.

Expanded Section and Viewing Interface

Clicking on a section title will also bring up a section introduction page in the interface to the right of the menu. This page will describe the section and include any important details, tips, instructions the user may need before proceeding to the subsections.

To view a subsection, click on the hyperlink to the subsection title in the menu bar.

Subsection Page View

The page for the subsection, including application question and response fields, will be visible in the UI display to the right of the menu. Note that the gray bar at the top of the display lists the name of the section and subsection currently displayed.

To navigate to another subsection, click on the subsection title.

If you are finished viewing an application section and would like to minimize its list of subsections, simply click on the section title link in the menu again.

The menu allows you to move from section to section as needed within the application. Just be sure to always **Save** any entries you have entered for a subsection before navigating away from that page.

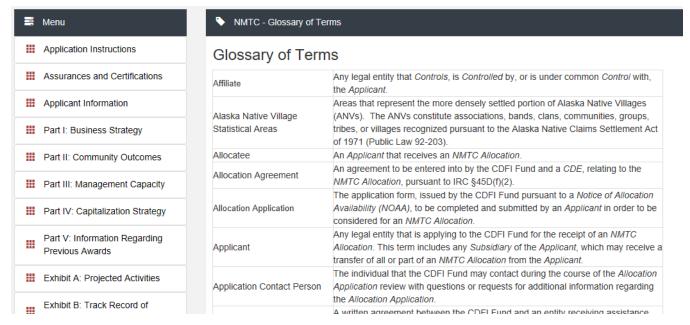

NOTE: If you do not Save before navigating away from a subsection, you will lose your work.

4.3 Time Management

You may save data, log out, and return to your application at a later date. The electronic application will automatically log you off after <u>2 hours of inactivity</u> (i.e., no movement between screens). <u>If this happens, you will lose any data that you entered and did not save</u>.

4.4 Glossary of Terms

Words that are *italicized* are defined glossary terms. The Glossary of Terms is available in the NMTC application. Select "Glossary of Terms" from the bottom of the left-hand menu bar.

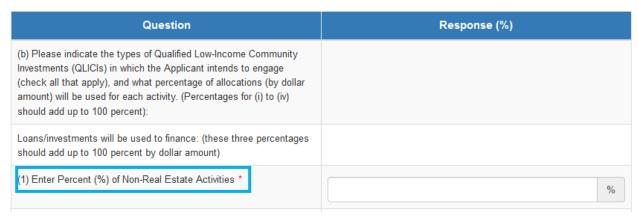

Glossary of Terms

SECTION 5.0 – USER INTERFACE NAVIGATION AND FORM FEATURES

5.1 Saving and Completing a Section

When you click **Save** at the bottom of a subsection page, the application will SAVE your answers and run any validations configured for that subsection and questions. You will receive on-screen error messages and guidance based on the validation rules. After clicking **Save**, you can navigate away from the subsection and your answer will be saved. **Please Note: If you navigate away before you click save you will lose your responses/answers. REMEMBER TO ALWAYS CLICK SAVE.**

To complete a subsection, fill in all necessary fields. All required fields are marked with a red *.

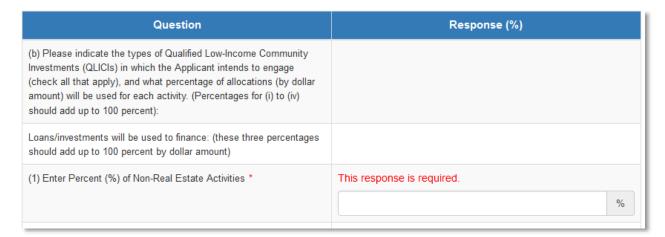

Sample Required Field

At the bottom of the page click the **Save** button.

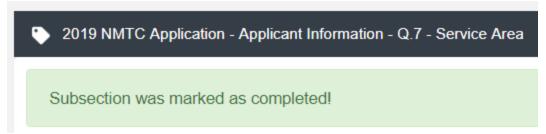

Save Button

The application will save all responses. If any of your responses fail validation, the subsection cannot be Marked Complete. Any validation errors or guidance will be displayed. For example, a field left empty will display "this response is required."

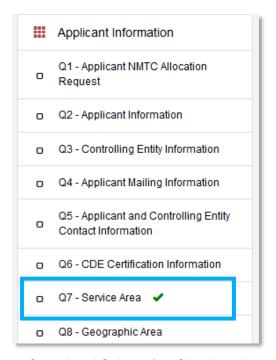

Validation Error Message

Correct any failed responses and try to save again. When the subsection page is successfully Marked Complete, this message will appear at the top of the display, just below the gray bar with the name of the section and subsection you are viewing.

Subsection Saved and Completed Message

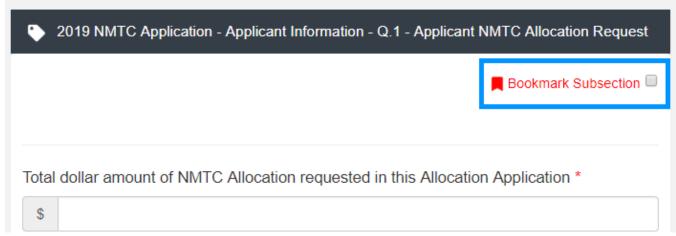

In the menu bar, a green checkmark will appear next to the saved and completed subsection.

Completed Subsection Checkmark

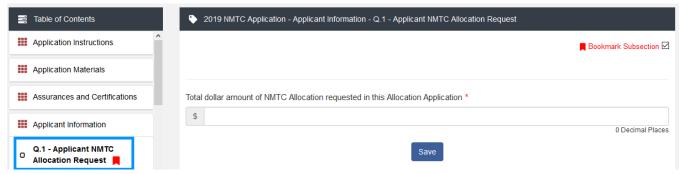

5.2 Bookmarks

If you need to flag a subsection to return to later, use the bookmark feature. When you click on any subsection, you will see the **Bookmark Subsection** checkbox visible in the upper-right of the display.

Bookmark Subsection Checkbox

Click the checkbox to bookmark the subsection. A bookmark symbol will appear next to that subsection in the application menu.

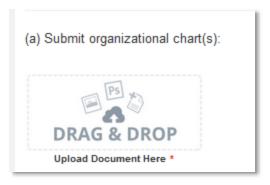

Bookmarked Subsection

To remove a bookmark, simply uncheck the checkbox.

5.3 Validation Rules, Error Messages, and Guidance

There are validation rules associated with required fields and other information in the application. When you **Save** a subsection, all validations will be executed. If there are errors detected, you will see error messages displayed by the field that needs to be adjusted. Please follow all error message guidance accordingly.

These errors may range from inputting an invalid value to omitting a required field. For example, you may be asked to upload documents using the Drag & Drop feature.

Upload Attachment Required Field

If you skipped over this required document upload feature, you would receive the following error message when you try to save:

Missing Attachment Error Message

You will receive a similar error message if you omit a response in any other required field, like the picklist field below.

Missing Required Field Error Message

If left blank, you will receive an error message "This response is required."

In numerical entry fields, there are often specific guidelines the applicant must follow. For example, in the field below the percentage value entered must be more than 50%.

10.1 If "Yes", indicate the percentage of activities provided to Native American communities during the most recent fiscal year Percentage of activities provided to Native American communities during the most recent fiscal year must be greater than 50%

10

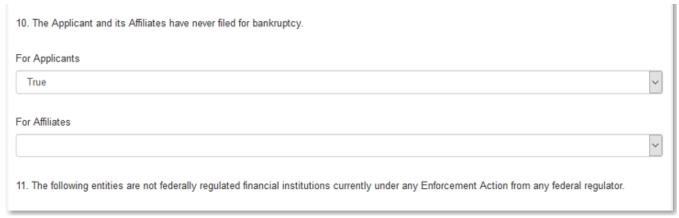

Numerical Entry Error Message and Guidance

If less than 50% is entered, you will receive guidance that activities must be greater than 50%.

The guidance provided in these error messages will give you a clear idea of how to correct the validation error.

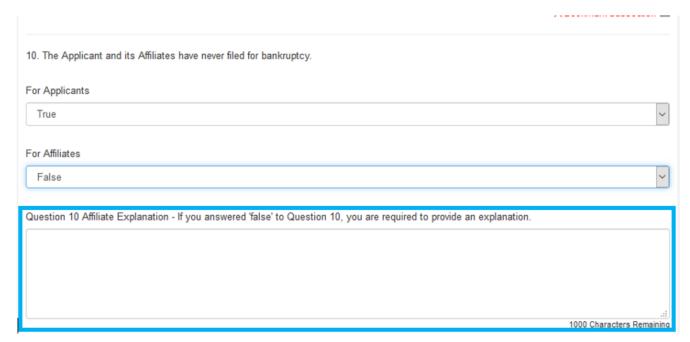

5.4 Dependent Questions and Subsections

Responses to some questions will trigger the applicability of other dependent questions or subsections/tables later in the application. Be careful when changing the responses to these types of questions because the answers you input in earlier sections may affect the required fields and dependent subsections you will have to complete later in the application.

Sample Questions with Possible Dependent Questions

A **Dependent Question** will appear on the question page you are editing when your response requires additional responses or explanations. For example, if you select False from the picklist in response to Q10, a text box requiring an explanation of your answer will appear.

Dependent Question

Dependent questions typically are required fields.

For all questions requiring a <u>narrative response</u>, please note that each text response field has an identified maximum character length (which, depending on font size, will range from about a third of one page to about two pages.)

These character maximums include spaces, punctuation, and special characters. The text box will not allow you to exceed the maximum character limit. If you are copying a response from another source, please make sure you are within the character limit or the <u>text box may</u> truncate your response.

Character Maximums for Text Responses

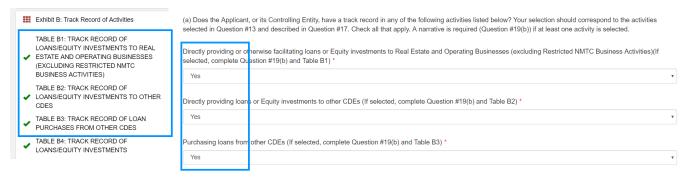

<u>TIP:</u> Before using the electronic *Allocation Application*, type your narrative answers into a separate word processing program (e.g., Microsoft Word). Then copy and paste the answers into the appropriate sections of the electronic application. This will prevent the loss of information if you encounter problems saving your application or connection problems. It will also cut down on the time you spend directly filling out the application online. When copying and pasting the narrative responses from a word processing program into the narrative text box, any special indentations or spacing will not carry over. Formatting, such as bold, italicized, or underlined text, will not display in the narrative.

To copy and paste information in a Windows platform from a MS Word file or other word processing file:

- 1. Go to the document with the appropriate text.
- 2. Highlight the information you wish to paste. **Press and hold down the Ctrl button, then press C**. Alternatively, you can press the right button on your mouse and then select **Copy**.
- Go to the electronic application. Click in the applicable text box. *Press and hold down the Ctrl button, then press V.* This will paste the information into the text box.
 Alternatively, you can press the right button on your mouse and then select Paste.
- 4. The text boxes only allow basic text. Any formatting (e.g., italics, bold, bullets) will be simplified to a basic font. Charts and tables cannot be pasted or created in the text boxes. Additionally, you will not be able to check for spelling or grammatical errors within the electronic application.

A **Dependent Subsection** is a subsection that is enabled or disabled for the applicant to complete based on input the applicant has entered in the application. This feature is designed to make it easier for you to navigate the application by disabling sections that do not apply to your application.

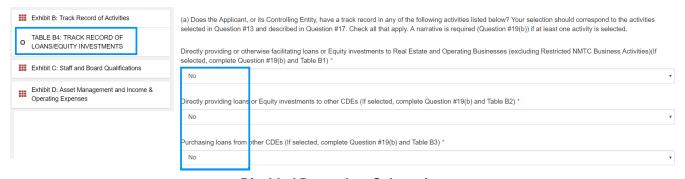

In the example below, applicants are asked if they have a track record of providing loans/equity investments to certain groups. If an applicant had such a track record, they would be required to complete several tables later in the application detailing this record.

Enabled Dependent Subsections

If you have not yet selected an answer or do not select "Yes", the corresponding tables (B1-B3) will not be visible in the navigation bar. Only after selecting "Yes" will the tables appear for you to complete.

If you select "No", you will not be required to complete these tables. Once you click **Save**, those tables will disappear from the navigation bar.

Disabled Dependent Subsections

It is important to complete the application in numerical order because questions in earlier sections may trigger or disable dependent subsections later in the application.

Successful File Upload

4. Upload any additional files using the same process. If you need to remove an uploaded file, simply click the gray "x" next to the file name.

5.7 Dynamic Record Tables

The NMTC application may require the applicant to enter a list of records, like Projects or Transactions as part of the application. These records are a series of questions that are repeated to the applicant and are collected dynamically through the application. An applicant may need to add 2 records or 20 records depending on the application question.

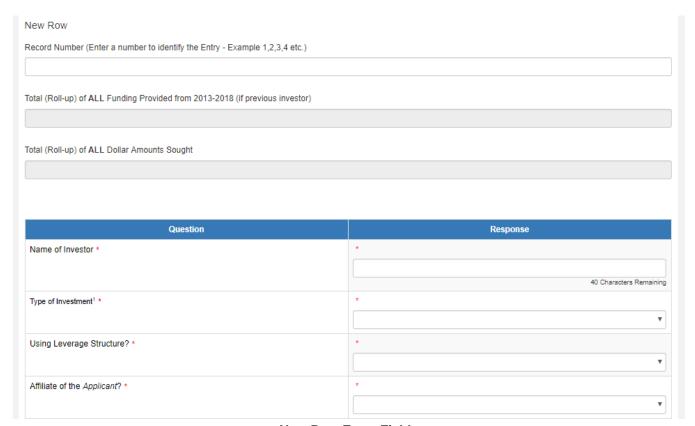

The application features both dynamic record entry tables and direct-entry tables. (For instruction on entering data into direct-entry tables, please see section 5.8.)

You will recognize dynamic record tables by the page setup. When you open a new subsection with one of these tables, an empty table field will be displayed below the table instructions at the top of the page. As you add records to the table, they will appear in this table overview section.

Empty Dynamic Entry Table

Below the table overview is the field entry form. Data is entered into this form and saved to create a single record row in the table. Additional rows are created by populating the fields with new data and saving the form again.

New Row Entry Fields

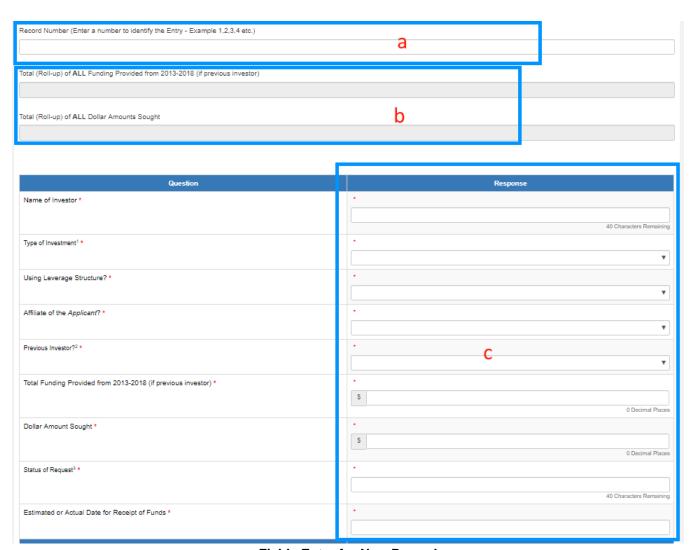

At the bottom of the page there are buttons to **Save**, **Download CSV**, and **Delete Record**.

Dynamic Table Buttons and Footnotes

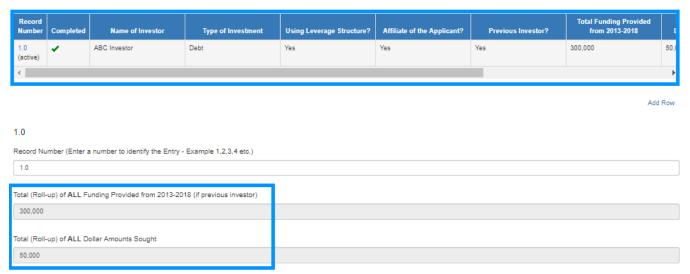

To add or edit dynamic table records:

- 1. Complete the field entry form for your first record. On the form you will see:
 - a. Record Number Example "1,2,3,4". This is your record number. Once you save, this will become the number of the row in the table overview where it will be hyperlinked, allowing you to return to the record at any time. This field allows up to one decimal place.
 - b. Totals or Roll-Ups You will not enter any information into these fields, rather, they will display results of calculations based on the data you input into the rest of the form. When one or more fields are totaled across all records it will be displayed as shown and labeled accordingly. Sums are updated with each save.
 - c. Record Questions and Responses Enter your responses to the questions for this record collection. When all fields are complete, click **Save.**

Fields Entry for New Record

4. This will create a new active record row in the overview table. Fill in the empty fields in the New Row section below just as you did for the first record. Click **Save** to populate the table overview with your second record's data and to update calculated fields.

New Active Record Row

5. Repeat this process to add additional records as needed.

6. To edit any record, click on the hyperlink of the record name in the overview table.

Download CSV Button

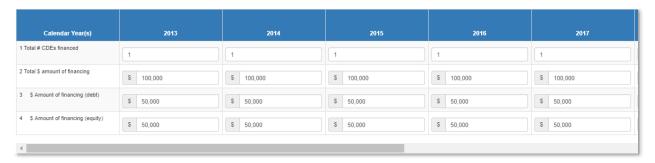

2. Download using your browser's download feature. When you open the document in Excel it will display all the data you have entered for each record.

Sample CSV of Dynamic Record Table

5.8 Direct-Entry Tables

The NMTC Application will require the applicant to enter table data. These direct-entry tables are configured to collect specific data and are easy to navigate. Unlike dynamic record tables, direct-entry tables allow you to input your data directly into the table.

Sample Direct-Entry Table

In the sample table above, you can see that a direct-entry table simply allows you to enter responses to multiple question rows for a number of different columns at the same time.

To navigate the table, simply use the "left to right" slide bar. If the number of columns exceeds the standard screen format, the slide bar will allow you to access the columns to the right. If using the Tab key during data entry, please note Tab moves the cursor to the field in the column to the right.

Some tables have formula fields that auto-calculate a sum based on the formula configured and the table data entered. These fields will populate as you are updating the table once all table fields included in the embedded formula are entered. Sum calculations only display after clicking SAVE.

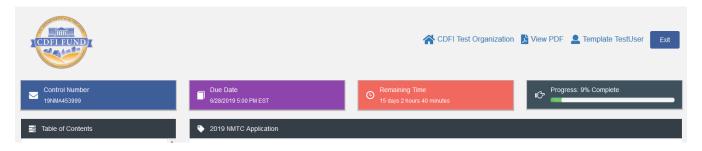

Formula Field Calculated Totals

5.9 Export to PDF
