

COMPLIANCE MONITORING AND EVALUATION

NEW MARKETS TAX CREDIT

FREQUENTLY ASKED QUESTIONS
UPDATED AUGUST 2026

This document supersedes the April 2025 edition of the *New Markets Tax Credit (NMTC), Compliance and Monitoring Frequently Asked Questions* by adding, revising or updating select questions from that edition. The highlighted questions have been added or have been significantly modified from the published document of April 2025. Capitalized terms used but not defined herein shall have the respective meanings assigned to them in the applicable Allocation Application, the applicable Allocation Agreement, the Act, and/or the NMTC Program Income Tax Regulations.

Table of Contents

1.	Does the CDFI Fund impose an annual monitoring/compliance fee?	8
2.	Will the CDFI Fund share data submitted by Allocatees with the Internal Revenue Service (IRS) or any other entity or agency?	8
3.	When is compliance measured and for what period will the CDFI Fund measure compliance?	8
4.	What happens if an Allocatee fails to meet the performance requirements outlined in the Allocation Agreement?	9
B. Allocation and QEI Tracking		10
5.	How are allocation transfers and QEI reporting tracked in the AMIS environment?	10
6.	Can a Community Development Entity (CDE) that has received an allocation provide a QEI to another Allocatee?	10
7.	Can an Allocatee amend a finalized QEI in AMIS?	10
8.	I did not receive the QEI notification email. How do I obtain a copy for our records?	11
9.	My CDE is 100% owned by an S Corporation that has numerous shareholders. Will AMIS require the user to enter each of the shareholders and their respective information as NMTC claimants?	11
C. Allocation Agreement		12
10.	Which activities are permissible with respect to financial counseling and other services (FCOS)?	12
11.	How can a CDE take advantage of the provisions outlined in Treasury Directive (TD) 9600?	12
12.	What is the definition of Non-Real Estate QALICB for purposes of TD 9600?	13
13.	What is the definition of Real Estate QALICB versus Non-Real Estate QALICB for purposes of the Allocation Agreement?	14
14.	My CDE has received principal repayments on a QLICI and will reinvest those proceeds in a new QLICI. Is the new QLICI subject to the same requirements found in Section 3.2 of the Allocation Agreement (i.e., Types of QLICIs, Service Area, etc.)?	14

15. Is the six-month cure period found under § 1.45D-1(e)(6) available to correct an Allocatee's or Subsidiary Allocatee's failure to invest substantially all of its QEI proceeds? 14
16. If an Allocatee is providing loans to or investments in other CDEs, how will the CDFI Fund monitor compliance with the provisions of Section 3.2? Will the CDFI Fund only consider the initial QLICI into the other CDEs, or will the CDFI Fund look through the CDEs to the ultimate QALICB recipients? 15
17. How does the CDFI Fund view an Allocatee's use of QLICIs to finance housing units if Section 3.2(k) of the Allocation Agreement is listed as "Not Applicable"? 15
18. How does the CDFI Fund define "affordable housing" for the purpose of meeting Section 3.2(k) of the Allocation Agreement? 16
19. How can CY 2024-2025 Allocatees request additional flexibility, above the 15 percent flexibility within the NMTC Program's "general consistency" rule, to finance projects or businesses that exclusively develop/finance homeownership units? 17
20. What is the "substantial rehabilitation" threshold for purposes of meeting Section 3.3(h) of the Allocation Agreement? 19
21. How does the CDFI Fund evaluate 3.3(h)(iv) of the Allocation Agreement regarding the exception for acquisition costs in connection with new construction in cases where the QALICB's principal business activity is the rental to others of real property? 19
22. How does the CDFI Fund measure "innovative investments" for the purpose of meeting Section 3.2(l) of the Allocation Agreement? 19
23. How does the CDFI Fund measure "small dollar QLICIs" in meeting Section 3.2(l) of the Allocation Agreement? 20
24. If An Allocatee commits to provide QLICIs for non-Real Estate Activities as an innovative investment under Section 3.2(l) of the Allocation Agreement, can a financial note financing both Real Estate and non-Real Estate Activities count toward this commitment? 21
25. My CDE is making several disbursements related to a QLICI to a project over a set period. At the time of the initial QLICI disbursement, the project was deemed to be in an eligible NMTC census tract. Will future disbursements connected to the QLICI under the project qualify if the tract is later deemed not to be an eligible NMTC census tract? 22
26. If an Allocatee elects to transfer allocations to a Subsidiary Allocatee (i.e., a Subsidiary CDE listed in Section 3.2 of its Allocation Agreement), will the CDFI Fund monitor compliance with Section 3.2 separately by each subsidiary or on a consolidated basis for all Subsidiary Allocatees that are parties to the Allocation Agreement? 22
27. How does the "joint and several liability" provision of the Allocation Agreement apply to Allocatees that intend to sub-allocate tax credit authority to Subsidiary Allocatees? 23
28. How will the CDFI Fund monitor compliance with the unrelated entity requirement in Section 3.2(d) of the Allocation Agreement? 23
29. Section 3.2(f) of my CDE's Allocation Agreement states that "All of the Allocatee's QLICIs must (a) be equity or equity-equivalent financing, (b) have interest rates that are "X" percent lower than either the prevailing market rates for the particular product or lower than the Allocatee's

current offerings for the particular product, or (c) satisfy at least five of the indicia of flexible or non-traditional rates and terms, as listed in Section 3.2(f).” How can my CDE demonstrate that it is satisfying this requirement?	24
30. Does an SBA designated HUB Zone qualify as an eligible area of higher distress and how does the CDFI Fund determine if a QLICI supports businesses that obtain HUB Zone certification?	25
31. How does an Allocatee document “better rates and terms” for its QLICIs and how will the CDFI Fund determine compliance with the better rates and terms requirement of the Allocation Agreement?	26
32. What supporting documentation does an Allocatee need to retain in order to demonstrate compliance with the Targeted Distressed Communities identified in the Allocation Agreement by investing in Areas of Higher Distress? What resources are available to determine if a census tract is in an approved Area of Higher Distress?	27
33. How will the CDFI Fund measure compliance with the newly added Areas of Deep Distress criteria in the CY 2024-2025 Application?	28
34. How will the CDFI Fund measure compliance with meeting the requirement of Section 3.2(h) Targeted Distressed Communities or the “Deep Distress” criteria for a QALICB with tangible property in several census tracts?	29
35. Is there a source to determine the unemployment rate for a census tract?	29
36. How does the CDFI Fund define activities that “support health related services” as it relates to QLICIs in federally designated Medically Underserved Areas (MUA) or geographic Health Professional Shortage Areas (HPSA) as designated by Health Resources & Service Administration (HRSA)?	30
37. How will the CDFI Fund determine if a project is located in a census tract designated as Low-Income and Low-Access to supermarkets, supercenters, or large grocery stores using USDA’s Food Access Research Atlas?	30
38. How does the CDFI Fund define “other similar federal/state/local programs targeted towards particularly economically distressed communities”?	31
39. All Allocatees are required to invest substantially all (generally 85%) of their QEIs as QLICIs. Section 3.2(j) of the Allocation Agreement may require an Allocatee to invest an even higher percentage of QEIs (e.g., 95%; 100%) as QLICIs, based on representations made by the Allocatee in its Allocation Application. How does the CDFI Fund monitor compliance with Section 3.2(j) of the Allocation Agreement?	32
40. Does Section 3.3(h) of my Allocation Agreement (prohibitions on real estate refinancing), allow for the “take-out” of both debt and equity?	33
41. Can takeout financing apply to an amortizing loan under Section 3.3(h)(v) of the Allocation Agreement?	33
42. What is the CDFI Fund’s expectation regarding 3.3(k) of the Allocation Agreement regarding an Allocatee’s monitoring of a QALICB’s violation of applicable Federal anti-discrimination laws, including a QALICB providing employment or financial preferences or set-	

asides based on any person’s race, ethnicity, or sex, in a manner that is inconsistent with any applicable Federal anti-discrimination laws?	33
43. What is a Material Event?	34
44. Section 6.9 of the Allocation Agreement requires CDEs to report Material Events to the CDFI Fund within a specified number of days of the occurrence stated in the Allocation Agreement. How do I report a Material Event to the CDFI Fund?	35
45. What are the restrictions on the use of Bond Proceeds under the CDFI Bond Guarantee Program in NMTC related activities?	36
46. What are the restrictions on the use of QLICI proceeds to repay or refinance any debt or equity provider, or an Affiliate of any debt or equity provider, whose capital was used, directly or indirectly, to fund a QEI?	37
47. How will the CDFI Fund monitor the restriction on the use of QLICI proceeds to directly or indirectly repay or refinance any debt or equity provider, or Affiliate to any debt or equity provider, whose capital was used, directly or indirectly, to fund the QEI beginning with the CY 2015-2016 NMTC Allocation Round?.....	38
48. Can a QALICB use QLICI proceeds to repay or refinance any debt or equity provider, or Affiliate of any debt or equity provider, and to monetize an asset owned by, contributed, sold, or otherwise transferred to the QALICB (or an Affiliate of a QALICB) including but not limited to the accreted value of an asset?	39
49. How will the CDFI Fund evaluate adherence to 3.3(i) of the Allocation Agreement as it pertains to NMTC activities that are “generally consistent” with the Application?	40
50. What is the expectation of Allocatees regarding Section 4.13 of the Allocation Agreement? 41	
51. What does Section 6.12 of the Allocation Agreement require?	41
52. How should an Allocatee report QALICB consulting fees?	44
D. Reporting and Financial Statements.....	45
53. Which organizations are required to submit audited financial statements to the CDFI Fund? 45	
54. Will the CDFI Fund accept the audit of an Allocatee’s controlling entity, or parent company, if the Allocatee is not separately audited?	45
55. Is a Tax Basis financial statement acceptable in lieu of GAAP prepared financial statement?	45
56. How will the CDFI Fund treat an audit that has an opinion other than “unqualified”?	45
57. How will an Allocatee fulfill its reporting requirements as outlined in Section 6.5 of the Allocation Agreement?	46
58. What is the QEI “Closeout Report”?	46

59.	Are Allocatees that have yet to issue a QEI required to submit ILRs and TLRs?	47
60.	What if the Allocatee and the sub-Allocatee have differing fiscal year end dates?	47
61.	Will there be any penalties for late reporting?	47
62.	What happens when a Subsidiary Allocatee has completed the seven-year NMTC compliance period?	47
63.	What happens after an Allocatee completes its seven-year compliance period after issuance of its last QEI?	48
E. CDFI Fund's Information Mapping System		49
64.	Can Allocatees rely on data from the CDFI Fund's Information Mapping System (CIMS) for the purpose of determining whether transactions are located in NMTC eligible low-income communities?	49
65.	CIMS indicated that an address is not valid. How do I geocode an address that CIMS cannot validate?	49
66.	Why do I get a different census tract location when I map the same address at a later date? How will the CDFI Fund handle such differences?	51
67.	What data should be used to determine qualifying census tracts?	51
F. CDE Certification.....		52
68.	Am I required to notify the CDFI Fund if a certified CDE has been dissolved?	52
69.	How will an Allocatee maintain their CDE Certification status?.....	52
70.	Does the CDE certification have an expiration date?.....	52
71.	If a CDE loses its status as a CDE, will it be offered an opportunity for a cure period?	53
G. Amendments		54
72.	Can an Allocatee request an amendment to its Allocation Agreement?	54
73.	How can Allocatees add additional Subsidiary Allocatees to Section 3.2?	54
74.	Can a CDE amend the Service Area stipulated in the Allocation Agreement?.....	55
H. Controlling Entities, Control of Allocatees and Subsidiary Allocatees.		56
75.	Are New Markets Tax Credit Program (NMTC) allocation recipients (Allocatees) permitted to transfer their tax credit authority to other entities?	56
76.	How does the CDFI Fund define "Control," for the purpose of demonstrating that an Allocatee controls a subsidiary entity?	56

77.	If an Allocatee designated a Controlling Entity in its NMTC Allocation Application for the purpose of demonstrating a track record, is the Controlling Entity required to maintain control during the entire NMTC term of the Allocation Agreement?	57
78.	Can a Controlling Entity be removed from an Allocation Agreement?.....	57
79.	Procedures for requesting an amendment to remove the designated Controlling Entity? .	58
80.	What are the requirements to be a Controlling Entity?	58
81.	What does the CDFI Fund deem to be a “controlling influence over the management policies” of another entity?	59
82.	What does the CDFI Fund deem to be a “controlling influence over the investment decisions” of another entity?	60
83.	Will the CDFI Fund review operating agreements submitted by Allocatees to determine whether they “control” Subsidiary Allocatees?	61
84.	How does the CDFI Fund view investor rights to remove the Allocatee as the managing entity of the Subsidiary Allocatee?	62
I.	Contacting the CDFI Fund’s Compliance Unit	63
85.	How to contact the CDFI Fund’s Office of Compliance Monitoring and Evaluation?.....	63

NOTE: This document is intended to serve as public guidance for the subject matter contained herein. The CDFI Fund reserves the right, however, to modify this guidance at any time upon public notice. The examples contained in this guidance are not exhaustive in nature and the CDFI Fund has the discretion to consider additional factors when determining matters of compliance.

A. General Compliance Questions

1. Does the CDFI Fund impose an annual monitoring/compliance fee?

As of the publication date of this document, the Community Development Financial Institutions (CDFI) Fund has elected not to collect the annual monitoring/compliance fee outlined in Section 7.1 of the Allocation Agreement. If the CDFI Fund elects to impose a monitoring/compliance fee, it will provide advance notification to all Allocatees.

2. Will the CDFI Fund share data submitted by Allocatees with the Internal Revenue Service (IRS) or any other entity or agency?

The CDFI Fund will, consistent with applicable law (including Internal Revenue Code (IRC) § 6103), make Allocatee reports available for public inspection after deleting any materials necessary to protect privacy or proprietary interests. The IRS will be given access to the CDFI Fund's data to facilitate IRS's compliance program for IRC Section 45D.

3. When is compliance measured and for what period will the CDFI Fund measure compliance?

In general, compliance for most items under section 3.2 of the Allocation Agreement is triggered by the earlier of two events: 1) a specific date found in Allocation Agreement subsections 3.2 or 2) when an Allocatee has made 100% of its Qualified Low-Income Community Investments (QLICs).

Once compliance is triggered by either event noted above, the CDFI Fund will begin its annual compliance checks and will continue such checks until Qualified Equity Investments (QEIs) are redeemed. Though the CDFI Fund will not complete formal compliance checks prior to the triggering event nor after QEI redemptions begin to occur, Allocatees are expected, at all times, to comply with the requirements set forth in the Allocation Agreement. Allocatees that fail to do so could, at a minimum, be found in default of the Allocation Agreement.

Notwithstanding the above, the CDFI Fund recognizes that the IRS regulations allow Allocatees up to one year to invest QEI proceeds into QLICs and also allow Allocatees to retain principal repayments of QLICs for a prescribed period before being required to reinvest these proceeds into other QLICs. The CDFI Fund will take these allowances into consideration when conducting its compliance checks.

Example 1: An Allocatee receives a \$100 million allocation, issues \$100 million in QEIs and closes \$95 million in QLICs in fiscal year 2012. The Allocatee retains \$5 million for administrative costs and did not close any additional QLICs after December 31, 2012. The CDFI Fund would

conduct its initial compliance check on the \$95 million in QLICs and it will continue monitoring compliance for six years thereafter.

Example 2: An Allocatee with a September 30th, fiscal year end receives a \$100 million allocation, issues a \$70 million QEI and closes a \$65 million QLICI in fiscal year 2012 and retains \$5 million for administrative costs. The Allocatee does not issue any additional QEIs prior to the September 30, 2012, compliance trigger date. On September 30, 2012, the CDFI Fund would conduct its initial compliance check on the \$65 million QLICI, and it will continue monitoring compliance for six years thereafter.

In year five, the Allocatee receives an additional QEI of \$25 million and fully invests those proceeds in a new QLICI. The CDFI Fund would now conduct its compliance test on combined QLICs of \$90 million until the 7th anniversary of the second QEI.

4. What happens if an Allocatee fails to meet the performance requirements outlined in the Allocation Agreement?

Failure to meet the requirements, including those requirements articulated in Schedule 1, of the Allocation Agreement, is regarded as an Event of Default and therefore must be reported to the CDFI Fund as a Material Event. (Please refer to Question 43 and 44 of this document for additional details on Material Events.)

Typically, the CDFI Fund provides a cure period of up to 90 days to remedy Events of Default. It is incumbent on the Allocatee to report in a timely manner if it has failed or expects to fail any of the requirements of the Allocation Agreement. Failure to report a Material Event in a timely manner could impact an Allocatee's ability to apply for or receive a future allocation.

B. Allocation and QEI Tracking

5. How are allocation transfers and QEI reporting tracked in the AMIS environment?

As of May 25, 2018, the CDFI Fund transitioned Qualified Equity Investment (QEI) reporting from the Allocation Tracking System (ATS) to the Awards Management Information System (AMIS). AMIS displays a dedicated section titled “Allocations” for QEI reporting which provides enhanced functionality, reliability, reporting capabilities and data transparency. All historical data entered into ATS has been transferred to the AMIS environment. For new QEIs, AMIS will require Allocatees to enter data to differentiate between the tax credit equity investor and the debt provider in a leveraged structure; identify each investor’s investment amount; and identify the relationship between the Allocatee and the investor.

To facilitate reporting, a user [guide](#) is available on the CDFI Fund’s website.

6. Can a Community Development Entity (CDE) that has received an allocation provide a QEI to another Allocatee?

No. The IRS regulations specifically prohibit an Allocatee that has received an allocation from directly providing a QEI to another Allocatee. Additionally, an entity that invests in an Allocatee and subsequently receives its own allocation cannot provide QEIs to other Allocatees after the effective date of its Allocation Agreement.

For example, in June 2010, ABC Bank provided a QEI to Main Street CDE, a calendar year (CY) 2007 NMTC Allocatee. Subsequently, ABC Bank applied for and was awarded a CY 2011 NMTC allocation. ABC Bank would not be allowed to provide additional QEIs to Main Street CDE or any other Allocatee on or after the date of their award notification. This rule, however, would not preclude an affiliate of ABC Bank from providing QEIs to Main Street CDE, provided the affiliate has not received an allocation or sub-allocation of NMTCs.

7. Can an Allocatee amend a finalized QEI in AMIS?

No. Only the CDFI Fund may amend a finalized QEI. All amendment requests must be submitted in writing by the Authorized Representative. QEI Amendments can be submitted via the CDFI Fund’s Awards Management Information System (AMIS) through a Service Request. The Service Request should reference the following:

1. The Allocatee’s name
2. QEI Identifier
3. The Allocatee’s Award Control Number

4. The specific changes needed to be made.

The CDFI Fund will typically process QEI amendment requests in five business days. However, more complex situations can extend the time necessary to implement corrections. To avoid delays, it is imperative that Allocatees review all QEI entries for accuracy prior to finalizing them.

8. I did not receive the QEI notification email. How do I obtain a copy for our records?

All future email notifications will be sent to the Authorized Representative indicated in the organization's account in AMIS and stored in the Allocations section in AMIS. If the Authorized Representative has changed or his/her email address has changed, please refer to the CDFI Fund's website for guidance on how to update this information. If you did not receive the QEI notification email after finalizing a QEI, please submit an inquiry via an AMIS Service Request. Of note, AMIS allows Allocatees to add a secondary contact to receive the QEI notifications.

9. My CDE is 100% owned by an S Corporation that has numerous shareholders. Will AMIS require the user to enter each of the shareholders and their respective information as NMTC claimants?

If the individual shareholders claim the tax credit on their individual tax returns, each individual shareholder should be listed as a tax claimant in AMIS and the required investor information (i.e., name, and investor type) should be completed. This is necessary to assist the IRS in comparing AMIS entries with IRS Form 8874 (New Markets Credit) that it receives from taxpayers.

The CDFI Fund does not collect Taxpayer Identification Number (TIN) if "Individual" is selected as the Investor Type.

C. Allocation Agreement

NOTE: The examples below describe the approach the CDFI Fund is taking with respect to monitoring compliance with Section 3.2 and 3.3 of the Allocation Agreement. The IRS may adopt a different approach with respect to monitoring compliance with IRC Section 45D.

10. Which activities are permissible with respect to financial counseling and other services (FCOS)?

FCOS is “advice” provided by the CDE related to the organization or operation of a trade or business, including non-profit organizations. Possible FCOS activities include, but are not limited to, business plan development, assistance with business financials, assistance in securing financing, and assistance with general business operations. FCOS does not include “advice” provided to individuals, such as homeownership counseling or consumer counseling, that does not pertain to the operation of a trade or business.

The FCOS activity may be carried out by the CDE directly or through third party agreements managed by the CDE. To the extent QEI proceeds are dedicated to FCOS, a portion of the monies must be spent, and counseling services provided, within one year of receipt of the QEI in order to qualify as a QLICI.

Any questions regarding the eligibility of FCOS activities should be addressed to the IRS.

11. How can a CDE take advantage of the provisions outlined in Treasury Directive (TD) 9600?

To encourage investments in non-real estate businesses for working capital and equipment, the IRS issued final regulations (TD 9600) that modify the reinvestment requirements under the NMTC Program. If a CDE is availing itself of the IRS provisions for NMTC Non-Real Estate Investments (TD 9600), it must first designate the equity investment as a Non-Real Estate QEI in AMIS. The revised regulations, provided in TD 9600, allow a CDE that makes a QLICI in Non-Real Estate Qualified Active Low-Income Business (QALICB) to invest certain returns of capital from those investments in unrelated certified CDFIs that are also CDEs at various points during the seven-year credit period. Both the registration of the QEI and amount deposited in CDFIs should be reported in AMIS – see screenshot below:

QEI00013737

Operations	\$0.00	Term (in months)	84
Loan Loss Reserves	\$0.00		
Reserve for Additional Investments	\$0.00		
Deposits in CDFIs	\$0.00		

The regulations outlined in TD 9600 are effective for equity investments in CDEs made on or after September 28, 2012, the date that TD 9600 was published in the Federal Register by the IRS.

Allocatees are responsible for ensuring compliance with the specific requirements of TD 9600 in order to avail themselves of those provisions. In particular, be aware that under TD 9600 the purpose of the capital or equity investment in, or loan to, the Non-Real QALICB must not be connected to the development, management, or leasing of real estate. Development of real estate includes construction of new facilities and rehabilitation/enhancement of existing facilities. A CDE's compliance with the provisions of TD 9600 will ultimately be determined by the IRS.

Additional [guidance on TD 9600](#) can be found on the CDFI Fund's website.

12. What is the definition of Non-Real Estate QALICB for purposes of TD 9600?

Under TD 9600, a non-real estate qualified active low-income community business is any business whose predominant business activity (measured by more than 50% of the business' gross income) does not include the development (including construction of new facilities and rehabilitation/enhancement of existing facilities), management, or leasing of real estate. The purpose of the capital or equity investment in, or loan to, the Non-Real QALICB must not be connected to the development, management, or leasing of real estate.

13. What is the definition of Real Estate QALICB versus Non-Real Estate QALICB for purposes of the Allocation Agreement?

For allocations received in and after the CY 2014 round, the CDFI Fund eliminated the distinction between Real Estate QALICB and Non-Real Estate QALICB. These are no longer defined terms in the Allocation Agreement. Thus, Allocatees can make investments in, or loans to any QALICB, as long as this is designated as an eligible activity in its Allocation Agreement. “Real Estate Activities” was added to the Allocation Agreement as a new defined term. “Real Estate Activities” is the development (including construction of new facilities or rehabilitation/enhancement of existing facilities), acquisition, management or leasing of real estate by a business.

To align with TD 9600, the CDFI Fund defined “Real Estate QALICB” for CY 2013 and CY 2012, as any QALICB whose predominant business activity (i.e., activity that generates more than 50% of the business’ gross income) includes the development, management, or leasing of real estate. The CDFI Fund defines a Non-Real Estate QALICB as any QALICB that does not satisfy the definition of a Real Estate QALICB. Loans or investments made to a special purpose entity that is Controlled by or under common Control with a Non-Real Estate QALICB, and that was set up specifically to lease the property back to the Non-Real Estate QALICB such that the Non-Real Estate QALICB is the principal user of the property, must be classified as investments in a Real Estate QALICB.

Please note, the definitions as described above, pertain solely to the Allocation Agreement and do not affect eligibility for TD 9600.

14. My CDE has received principal repayments on a QLICI and will reinvest those proceeds in a new QLICI. Is the new QLICI subject to the same requirements found in Section 3.2 of the Allocation Agreement (i.e., Types of QLICIs, Service Area, etc.)?

Yes. To the extent a CDE reinvests repayments of principal as new QLICIs, the CDFI Fund will check compliance for all reported QLICIs against the requirements specified in the Allocation Agreement. For example, if an Allocatee is required to invest 85% of its QLICIs in its approved service area, the CDFI Fund will measure compliance against all reported QLICIs that are currently outstanding, whether original investments or reinvestments, to ensure that 85% of its QLICIs are in the approved service area.

15. Is the six-month cure period found under § 1.45D-1(e)(6) available to correct an Allocatee’s or Subsidiary Allocatee’s failure to invest substantially all of its QEI proceeds?

Yes. The six-month cure period found under § 1.45D-1(e)(6) is available to correct an Allocatee or Subsidiary Allocatee’s failure to invest substantially all of its QEI proceeds in QLICIs within the 12-month

period as required by § 1.45D-1(c)(5)(iv). However, the six-month cure period is not automatically added to the 12-month period. As the rule states, the six-month cure period begins on the date the CDE becomes aware (or reasonably should have become aware) of the failure to invest substantially all of the QEI proceeds in a QLICI within the 12-month period.

16. If an Allocatee is providing loans to or investments in other CDEs, how will the CDFI Fund monitor compliance with the provisions of Section 3.2? Will the CDFI Fund only consider the initial QLICI into the other CDEs, or will the CDFI Fund look through the CDEs to the ultimate QALICB recipients?

The CDFI Fund will look through to the ultimate QALICB recipient for the purpose of monitoring compliance with specific provisions of Section 3.2 of the Allocation Agreement, including compliance with the service area requirement, the better rates and terms requirement, innovative activities, and the Areas of Higher Distress requirement.

Allocatees are required to provide the CDFI Fund with transaction level data via AMIS, even if an Allocatee uses multiple layers of CDEs to execute its QLICIs. For example, to determine compliance with the service area provision in Section 3.2 for an Allocatee that invests in other CDEs, the Allocatee will submit census tract information of the ultimate QALICB recipient that receives the QLICI proceeds to determine if the QALICB recipient was located in the service area as defined in Section 3.2. The location of the CDE that received the initial loan or investment from the Allocatee will not be considered. As such, the Allocatee should have appropriate procedures in place to obtain the necessary reporting data pertaining to the ultimate QALICB recipient.

In measuring compliance with the better rates and terms provisions of the Allocation Agreement (Section 3.2 (f)), both the initial loan/investment to the CDE and ultimate QLICI to the QALICB, must meet the requirements of the Allocation Agreement.

17. How does the CDFI Fund view an Allocatee's use of QLICIs to finance housing units if Section 3.2(k) of the Allocation Agreement is listed as "Not Applicable"?

All Allocatees may use their QLICIs to develop/rehabilitate housing units so long as the project(s) fall within one or more of the Qualified Low-Income Community Investments listed in section 3.2(a) of the Allocation Agreement and otherwise meet the terms of the Allocation Agreement. For the CY 2015-2016 Round and prior rounds, section 3.2(k) of the Allocation Agreement only applies to an Allocatee if it is marked as "Applicable" in that Allocatee's Allocation Agreement. In cases where section 3.2(k) is marked "Not Applicable" in an Allocation Agreement it is the CDFI Fund's preference that, if an Allocatee uses its QLICIs to finance the development or rehabilitation of housing units, at least 20% of the aggregate housing units financed are affordable housing units.

Beginning with the CY 2017 Round, section 3.2(k) is marked as “Applicable” for all CY 2017 and later round Allocation Agreements. Therefore, if an Allocatee in the CY 2017 and subsequent rounds uses its QLICs to finance the development or rehabilitation of housing units, the Allocatee must ensure that at least 20% of the aggregate housing units that the Allocatee financed are affordable housing units.

In general, housing units includes manufactured housing and manufactured housing lots, permanent housing for disabled homeless persons, transitional housing, single-room occupancy housing, and group homes. Housing also includes elder cottage housing opportunity (ECHO) units that are small, freestanding, barrier-free, energy-efficient, removable, and designed to be installed adjacent to existing single-family dwellings. Housing does not include shelters, including those for disaster victims, or facilities such as nursing homes, convalescent homes, hospitals, residential treatment facilities, correctional facilities, halfway houses, housing for students, or dormitories.

18. How does the CDFI Fund define “affordable housing” for the purpose of meeting Section 3.2(k) of the Allocation Agreement?
--

1) Rental Housing: An Allocatee that finances rental housing units must satisfy the requirements of Section 3.2(k):

20% or more of total rental units financed with QLICs, throughout the seven-year NMTC compliance period, are both (i) Rent Restricted (the maximum monthly rent should not exceed 30% of the adjusted income of a family whose annual income equals 80% of the median income for the area, as determined by HUD, with adjustments for the number of bedrooms in the unit) and (ii) occupied by individuals whose family income calculated in accordance with the U.S. Department of Housing and Urban Development (HUD) Handbook 4350.3 REV-1 (or subsequent versions), is less than or equal to 80% of the area median family income as determined and adjusted annually by HUD.

Tenants should be certified as of the later of the date the QLICI is made or at move-in. Units occupied by nonqualified student households (as determined under Low-Income Housing Tax Credit (LIHTC) guidelines) will not qualify as affordable units.

For QLICs funded with pre-CY 2018 NMTC allocations, Allocatees must document maintenance of the Rent Restrictions for the seven-year NMTC compliance period by certifying the initial household income of the initial qualifying tenant and documenting reasonable attempts to ensure that each subsequent tenant occupying the property during the seven-year NMTC compliance period meets the income qualifications. Whether adequate reasonable attempts were made to comply with this provision will be determined by the CDFI Fund based on the specific circumstances of the property and factors including

but not limited to the size and location of the project, lease-up strategy, tenant turnover rates, and market conditions.

For QLICs funded with CY 2018 NMTC allocation and later rounds, Allocatees must document maintenance of the Rent Restrictions for the seven-year NMTC compliance period by certifying the initial household income of the initial qualifying tenant and each subsequent qualifying tenant occupying the property during the seven-year NMTC compliance period. QLICs funded with CY 2018 NMTC allocation and later rounds must adhere strictly to this requirement.

2) **Homeownership:** An Allocatee that finances homeownership units must satisfy the requirements of Section 3.2(k), ensuring that at least 20% of the total homeownership units financed are:

- a) purchased and occupied by Low Income Persons whose household income is 80% or less of the area's median family income as determined and adjusted annually by HUD at the time the units are sold to the homebuyer; and
- b) occupied by Low Income Persons meeting the requisite Debt-To-Income Ratio requirement for home loans insured by the Federal Housing Administration (FHA) at the time the units are sold to the homebuyer.

Alternatively, in the event that an Allocatee cannot document that a homebuyer meets the stated Debt-To-Income Ratio established by the FHA, the Allocatee must be able to substantiate that the purchase price of the home does not exceed 95% of the median purchase price for the area as used in the HOME Investment Partnership Program and as determined by HUD and the applicable participating jurisdiction for the year in which the home is purchased. The purchase price limits, as determined annually by HUD, can be found on the [HUD website](#).

For all NMTC homeownership activities, it is incumbent on the Allocatee to have processes in place to ensure that the homebuyer has the ability to: 1) repay the loan according to the terms of the loan; and 2) meet their other major financial obligations and basic expenses.

19. How can CY 2024-2025 Allocatees request additional flexibility, above the 15 percent flexibility within the NMTC Program's "general consistency" rule, to finance projects or businesses that exclusively develop/finance homeownership units?

To further support the development of affordable homeownership units that directly benefit Low-Income Persons, the CDFI Fund will consider, on a case-by-case basis, requests from CY 2024-2025 Allocatees

to use more than 15 percent and up to 30 percent of their allocation to finance business types that are generally inconsistent with the Allocatee's business strategy outlined in the Allocation Application.

When requesting approval to use their allocation above the 15 percent flexibility described in Question 49 and up to 30 percent of the related Allocation, a CY 2024-2025 NMTC Allocatee must submit a Service Request to the CDFI Fund in AMIS. While Allocatees may submit such requests at any time, the CDFI Fund's review period is expected to be at least 90 days.

The request must include, at a minimum:

- the Allocatee's name and Allocation Control Number;
- the portion of the Allocation that will be used;
- a description of the proposed homeownership activity, including the following:
 - the number of units restricted to or expected to serve households with incomes at 1) 80% or less of area median income (AMI); 2) 81–120% AMI; and 3) above 120% AMI, as applicable;
 - the types of housing units (e.g., single-family, townhomes, condominium units, manufactured housing).
- a narrative that explains and quantifies the following:
 - how the planned QLICs are expected to result in measurable economic benefits to households with incomes at 1) 80% AMI or less; 2) 81-120% AMI; 3) above 120% AMI, as applicable. Measurable economic benefits may include lower purchase prices; lower mortgage amounts or monthly payments; down-payment, closing-cost or other buyer assistance; below-market financing; interest-rate buydowns; etc.
 - whether the economic benefits to Low-Income Persons (LIPs - as defined in the Allocation Agreement) are broadly consistent. If benefits to LIPs are expected to vary significantly, briefly describe if that variation is driven by differences in homebuyers' incomes, affordability needs, unit type, project costs, geography, or other relevant factors.

The CDFI Fund generally expects to approve a request if it determines that the request:

- is consistent with the intent of the NMTC Program statute, regulations, and goals;
- clearly describes an Allocatee's proposed strategy to deploy QLICs to projects or businesses that exclusively develop/finance homeownership units;
- reasonably demonstrates that measurable economic benefits from the planned QLICs are expected to support LIP homebuyers, including how developing/financing homes targeted to non-LIPs is expected to support the affordability, feasibility, or increased production of homes for LIPs;
- reasonably demonstrates that economic benefits to LIPs are broadly consistent. If not, the Allocatee demonstrates that the differences are driven by disparities in homebuyers' incomes, affordability needs, unit type, project costs, geography, or other relevant factors;

- demonstrates the homeownership units meet the affordable housing requirements in the Allocation Agreement and NMTC Compliance FAQ.

20. What is the “substantial rehabilitation” threshold for purposes of meeting Section 3.3(h) of the Allocation Agreement?

In order to meet the substantial rehabilitation threshold, a CDE must show that for each building located on such property, the cost basis (as defined in 26 USC § 1012) of any improvements made during any 24-month period that includes any portion of the taxable year in which the QLICI is made, equals or exceeds 25% of the adjusted basis (as defined in 26 USC § 1011(a)) of the building with respect to which the improvements are made as of the beginning of the applicable 24 month period. In essence, each building on the property should meet the substantial rehabilitation threshold.

In the event no substantial rehabilitation occurred, it is the CDFI Fund’s expectation that an operating company that Controls or is under common Control with a QALICB whose principal business activity is the rental to others of real property must, as soon as it is feasible, occupy and be the primary user of the property in order for the Allocatee to be deemed in compliance with 3.3h.

21. How does the CDFI Fund evaluate 3.3(h)(iv) of the Allocation Agreement regarding the exception for acquisition costs in connection with new construction in cases where the QALICB’s principal business activity is the rental to others of real property?

A QALICB whose principal business activity is the rental to others of real property can meet the exception outlined in Section 3.3(h)(iv) of the Allocation Agreement, provided that the construction cost is greater than or equal to 25% of the acquisition cost.

22. How does the CDFI Fund measure “innovative investments” for the purpose of meeting Section 3.2(I) of the Allocation Agreement?

Consistent with the other provisions of section 3.2, compliance for “innovative investments” is triggered by the earlier of two events: 1) a specific date found in section 3.2 of the Allocation Agreement, or 2) when an Allocatee has closed 100% of its QLICIs. An underlying objective of “innovative investments” is to encourage Allocatees to make QLICIs into operating business through the provision of short-term or small dollar investments than the typical NMTC investments. As such, the CDFI Fund will allow a transaction to meet multiple categories of innovative investment. For example, a QLICI of \$1.5 million with a term of 50 months that financed working capital would satisfy the criteria for small dollar QLICIs, short-term QLICIs and financing of Non-Real Estate Activities.

The criteria for “innovative investments” are specific to the applicable allocation round. For example, in the CY 2013 round, “innovative investments” included investments in States or U.S. Island Areas that

have received fewer dollars of QLICIs in proportion to their statewide populations residing in Low-Income Communities, including Alabama, Arkansas, Florida, Georgia, Idaho, Kansas, Nebraska, Nevada, Tennessee, Texas, Puerto Rico, American Samoa, Guam, Northern Mariana Islands, and US Virgin Islands. In the CY 2014 round, “innovative investments” for underserved States or U.S. Island Areas did not include the state of Arkansas as it was supplanted by West Virginia.

23. How does the CDFI Fund measure “small dollar QLICIs” in meeting Section 3.2(l) of the Allocation Agreement?
--

A CDE making a small dollar QLICI in a QALICB will satisfy the innovative investments requirement if the following criteria are met:

- (1) The QALICB has not received a QLICI in any amount within the past 24 months; or
- (2) The QALICB has received QLICIs within the past 24 months which when combined with the CDE’s QLICI will not exceed the applicable maximum small dollar investment limit.

The applicable maximum small dollar QLICI limit is the amount stated in the Application submitted related to the Allocation under which the CDE is making the small dollar QLICI. However, if the QALICB has received previous QLICIs within the past 24 months, the applicable maximum small dollar QLICI limit is the amount stated in the Application for the Allocation under which the first QLICI to that QALICB within that 24-month period was made.

If a CDE receives principal repayments on a small dollar QLICI from the QALICB, that CDE or another CDE may make additional QLICIs to that QALICB provided that the total outstanding QLICI(s) to the QALICB do not exceed the applicable maximum small dollar QLICI limit.

Example #1: Applicable maximum small dollar investment limit

CDE 1 makes a \$1M small dollar investment in a QALICB in January 2018 using a CY 2017 Allocation (maximum small dollar limit \$2M). CDE 2 has a CY 2018 Allocation under which the maximum small dollar investment limit in the CY 2018 Application is \$4M. However, until after January 2020, CDE 2 is restricted by CDE 1’s previous QLICI and therefore cannot get credit for a small dollar investment under 3.2(l) of their Allocation Agreement for any QLICI(s) to the QALICB that would exceed a total of \$2M outstanding. After January 2020 (expiration of 24-month period), assuming CDE #1’s \$1M small dollar investment in January 2018 was the only previous QLICI in that QALICB, CDE 2 can make QLICI(s) up to \$4M in the QALICB.

Example #2: Sample permissible transactions (listing is not exhaustive of all permissible transactions)

CDE 1 makes a small dollar investment in January 2016 in QALICB of \$1M using a CY 2015 Allocation, the maximum small dollar investment limit in the CY 2015 Application was \$2M. All of the following transactions will satisfy the innovative investment requirements of 3.2(l):

- CDE 1 can make other small dollar investments in that same QALICB anytime through January 2018 of up to a total of \$1M without exceeding the CY 2015 applicable maximum small dollar investment limit (\$2M), or
- CDE 2 can make other small dollar investments in that same QALICB anytime through January 2018 of up to a total of \$1M without exceeding the CY 2015 applicable maximum small dollar investment limit (\$2M), or
- CDE 1 can make other small dollar investments into the QALICB after January 2018 up the applicable maximum small dollar investment limit in the Application for the Allocation under which CDE 1 is making the small dollar QLICI or
- CDE 2 can make other small dollar investments into the QALICB after January 2018 up the applicable maximum small dollar investment limit in the Application for the Allocation under which CDE 2 is making the small dollar QLICI.

CDEs are expected to monitor to ensure that the QALICB does not exceed the applicable maximum small dollar QLICI limit within a 24-month period. If a subsequent CDE (“CDE 2”) makes a small dollar QLICI into a QALICB that causes the QALICB’s total QLICIs within a 24-month period to exceed the applicable maximum small dollar investment limit for the previous QLICI in that QALICB; CDE 2 cannot receive innovative investment credit for the QLICI even if it otherwise satisfies the requirements.

24. If An Allocatee commits to provide QLICIs for non-Real Estate Activities as an innovative investment under Section 3.2(l) of the Allocation Agreement, can a financial note financing both Real Estate and non-Real Estate Activities count toward this commitment?

No. To be compliant with the non-Real Estate Activities provision of Section 3.2(l), all of the Allocatee’s QLICIs (across all active Allocations) to the project must be used entirely for non-Real Estate Activities, must be supported by documentation that its uses are designated for non-Real Estate Activities and must be recorded in the TLR with a “purpose” of “Non-Real Estate Business”, “Non- Real Estate Microenterprise” or “Other.”

For example, if the Allocatee provides two financial notes (i.e., Note A from Allocation X and Note B from Allocation Y) to a QALICB and all of Note A finances non-Real Estate Activities and a portion of Note B is financing Real Estate Activities, then no portion of the Note A or Note B to that QALICB may be counted towards its commitment for non-Real Estate innovative investments under Allocation X or Allocation Y.

With respect to multi-CDE transactions, the financing activities of other CDEs are not considered in the Allocatee's commitment to Non-Real Estate Activities. As a result, in such transactions, other CDEs may provide financing for Real Estate Activities.

25. My CDE is making several disbursements related to a QLICI to a project over a set period. At the time of the initial QLICI disbursement, the project was deemed to be in an eligible NMTC census tract. Will future disbursements connected to the QLICI under the project qualify if the tract is later deemed not to be an eligible NMTC census tract?

Yes. The CDFI Fund would consider a QLICI to be made within a qualifying census tract as long as the census tract qualified at the time the QLICI is closed, and an initial disbursement related to the QLICI is made (meaning an investment for which the Allocatee has distributed proceeds from the QLICI to the QALICB and/or to a disbursement/escrow account for future draws as reflected in the QLICI documents). The Allocatee must maintain relevant maps from the CDFI Information Mapping System (CIMS) to demonstrate eligibility at the time of the initial disbursement of the QLICI and maintain relevant documents to demonstrate that follow-on disbursements are from the same QLICI and are directly tied to the original project at the same address.

26. If an Allocatee elects to transfer allocations to a Subsidiary Allocatee (i.e., a Subsidiary CDE listed in Section 3.2 of its Allocation Agreement), will the CDFI Fund monitor compliance with Section 3.2 separately by each subsidiary or on a consolidated basis for all Subsidiary Allocatees that are parties to the Allocation Agreement?

The CDFI Fund will monitor compliance on a consolidated basis for the total allocation amount. For example, if ABC Allocatee receives a \$1 million allocation and is required to invest 100% of its QEIs as QLICIs, and 75% of its QLICIs in areas of severe economic distress, then ABC Allocatee must invest at least \$750,000 into areas of severe economic distress. If ABC Allocatee sub-allocates \$500,000 of its allocation to each of two Subsidiary Allocatees, each Subsidiary Allocatee does not have to separately invest 75% of its \$500,000 sub-allocation amount into areas of severe economic distress. It would be permissible, for example, for one Subsidiary Allocatee to invest \$500,000 into areas of severe economic distress and the other to only invest \$250,000 in such areas. Provided that the total dollar amount of QLICIs invested in such areas meets or exceeds \$750,000 on a consolidated basis, the Allocatee and its Subsidiary Allocatees would be deemed in compliance with the Allocation Agreement.

27. How does the “joint and several liability” provision of the Allocation Agreement apply to Allocatees that intend to sub-allocate tax credit authority to Subsidiary Allocatees?

As stated in the Allocation Agreement, the Allocatee and each of its Subsidiary Allocatees are jointly and severally liable for any event of default under Section 8.1 whether the Allocatee or any of its Subsidiary Allocatees incurs the default. If such an event of default occurs, the CDFI Fund may impose remedies jointly or severally upon the Allocatee and its Subsidiary Allocatees, except that the CDFI Fund will not terminate or reallocate any unused portion of the NMTC allocation with respect to any investment commitments related to a NMTC allocation made to a non-defaulting Allocatee or Subsidiary Allocatee, as determined by the CDFI Fund.

28. How will the CDFI Fund monitor compliance with the unrelated entity requirement in Section 3.2(d) of the Allocation Agreement?

Section 3.2(d) requires certain Allocatees to meet the IRS’s “substantially all” requirement by making investments in entities that are unrelated to the Allocatee. Allocatees are required to indicate in the Transaction Level Report (TLR) whether each QLICI made was to a related or unrelated entity. This test is measured on an aggregate QEI basis.

Beginning in the CY 2015-2016 NMTC Application Round, an Allocatee that has committed to invest in Unrelated Entities will be in compliance with its Allocation Agreement only if persons Unrelated to the Allocatee and Subsidiary Allocatee (if the Subsidiary Allocatee makes the QLICI) will hold a majority equity interest in the QALICB after a QEI is made in the Allocatee or Subsidiary Allocatee, but before the Allocatee or Subsidiary Allocatee uses the proceeds of that QEI to make its initial QLICI in the QALICB. The Allocatee must determine whether such persons are related to the Allocatee and Subsidiary Allocatee (within the meaning of IRC §267(b) and §707(b)(1)) in consultation with its own tax advisors and document such an assessment. The CDFI Fund will assess compliance with the Unrelated Entities requirement at the Allocatee and Subsidiary Allocatee level, if the Subsidiary Allocatee makes the QLICI. This requirement applies to all QLICIs made with allocations awarded in the CY 2015-2016 round.

An Allocatee (awarded in and prior to the CY 2014 round) that has committed to invest in Unrelated Entities will be in compliance with its Allocation Agreement only if persons unrelated to the Allocatee will hold a majority equity interest (as defined in IRC §45D(f)(2)(B)), and as determined subsequent to the receipt of a QEI, but prior to the Allocatee using the proceeds of that QEI to make the initial QLICI. The Allocatee must determine whether such persons are related to the Allocatee (within the meaning of IRC §267(b) and §707(b)(1)) in consultation with its own tax advisors. Furthermore, for such Allocatees, for all QLICIs made on or after April 15, 2010, the CDFI Fund will assess compliance with the Unrelated Entities

requirement at the Allocatee or the Subsidiary Allocatee (if the Subsidiary Allocatee makes the QLICI) level.

CDFI Fund may review any subsequent changes in QALICB, Allocatee CDE, or Subsidiary Allocatee ownership resulting in common ownership between the Allocatee CDE (and Subsidiary Allocatee) and the QALICB on a case-by-case basis to determine whether a principal purpose of a transaction or a planned series of transactions is to achieve a result that is inconsistent with the purposes of this rule. The requirement of Section 3.2(d) does not apply if an Allocatee becomes related to a business due to financial difficulties of the business that were unforeseen at the time the QLICI was made to the business.

29. Section 3.2(f) of my CDE's Allocation Agreement states that "All of the Allocatee's QLICIs must (a) be equity or equity-equivalent financing, (b) have interest rates that are "X" percent lower than either the prevailing market rates for the particular product or lower than the Allocatee's current offerings for the particular product, or (c) satisfy at least five of the indicia of flexible or non-traditional rates and terms, as listed in Section 3.2(f)." How can my CDE demonstrate that it is satisfying this requirement?

The CDFI Fund generally monitors transactions on an investment-by-investment basis. Each QLICI made with QEI proceeds must: (1) be an equity investment, equity equivalent financing, or a loan with an interest rate that is at least "X" percent below a market comparable; or (2) have the corresponding number of concessionary terms (e.g., higher loan to value ratio; reduced fees; non-traditional collateral; etc.).

It is permissible for a CDE to combine separate QLICI transactions for the purposes of meeting this requirement, provided that these transactions are part of a simultaneous closing and: 1) 50% of the dollar value of the combined transactions is in the form of equity, equity equivalents, or the blended interest rate is at least "X" percent below market (see example 1); or 2) at least 50% of the dollar value of the combined transactions have concessionary terms (see example 2).

Example 1: A CDE finances a \$1 million transaction by providing two notes: Note A consisting of \$750,000 market-rate loan and Note B consisting of \$250,000 loan that may be purchased by the QALICB or affiliate for a nominal rate after seven years. If the blended interest rate on these combined products is "X" percent below the prevailing market rate, the CDE satisfies the requirements of Section 3.2(f) provided these transactions are part of a simultaneous closing.

Example 2: A CDE finances a \$1 million transaction by providing two notes: Note A consisting of \$500,000 market-rate loan with Note B consisting of \$500,000 below market rate loan. If Note B (consisting of 50% of the total transaction) has: a) an interest rate that is less than "X" percent below market; b) a loan to value ratio more favorable than market; c) origination fees that are

lower than market; d) a debt service coverage that is lower than market; and e) interest-only payments for seven years; then the CDE satisfies the requirements of Section 3.2(f).

Example 3: A CDE finances a \$1 million transaction by providing Note A of \$750,000 with a 4.0% (market rate) interest rate and Note B of \$250,000 with a 2.4% interest rate. With a combined interest rate 3.6%, the CDE fails the requirements of Section 3.2(f) because less than 50% of the blended product offering meets the 50% below-market interest rate requirement.

Example 4: A CDE finances a \$1 million transaction by providing Note A consisting of \$800,000 market rate loan with QLICI B consisting of \$200,000 equity investment. The combined transaction has five concessionary features that include: a) interest rate that is less than “X” percent below market; b) loan to value ratio more favorable than market; c) origination fees lower than market; d) debt service coverage lower than market and e) interest-only payments for seven years. The CDE meets the requirements of section 3.2(f).

30. Does an SBA designated HUB Zone qualify as an eligible area of higher distress and how does the CDFI Fund determine if a QLICI supports businesses that obtain HUB Zone certification?
--

Depending on the allocation agreement, an SBA designated HUB Zone may qualify as an eligible area of higher distress. For the CY 2005 – CY 2022 allocation rounds, the project must be located in an SBA designated HUB Zone and the QLICIs must support businesses that obtain HUB Zone certification from the SBA.

For the purposes of compliance, the CDFI Fund will consider that an investment “supports” a HUB Zone business if the QLICI meets one of the following criteria:

1. The QLICI is used to finance a QALICB that maintains an active HUB Zone business certification.
2. The QLICI is used to finance a QALICB where at least 50% of the dollar value of the contracts and sub-contracts related to the development, management or leasing of the QALICB go to businesses with active HUB Zone certifications.
3. The QLICI is used to finance a real estate QALICB where at least 50% of the rentable square footage is leased to businesses with an active HUB Zone Certification.

When completing the Areas of Higher Distress section in AMIS, Allocatees should respond to these criteria based on the language found in its Allocation Agreement. Thus, Allocatees who received a CY 2005 – CY 2022 should only respond “Yes” to an SBA HUB Zone if both requirements are met as detailed

in the Allocation Agreement. For CY 2023 and later allocatees, SBA designated HUB Zone is no longer considered an area of higher distress.

31. How does an Allocatee document “better rates and terms” for its QLICIs and how will the CDFI Fund determine compliance with the better rates and terms requirement of the Allocation Agreement?

To document better rates and terms to a QALICB that would not otherwise obtain financing in the market, the Allocatee may use documents from other financial institutions that demonstrate that: the QALICB did not meet its financial underwriting criteria and the loan was not approved; or that the loan was approved with certain conditions, rates and terms that would result in the project being economically unfeasible or unsustainable.

If the Allocatee's Controlling Entity, Affiliate(s) or QEI investor provides financial products similar to those offered by the Allocatee (or Subsidiary Allocatee), the Allocatee may use the rates, terms and flexible features (LTV, DSCR, etc.) of the non-NMTC product (for a similar project and similar borrower) as a comparable for demonstrating that the QLICI meets the provisions of Section 3.2(f). Documentation may include the underwriting memorandum, or project assessment reviewed and approved by the Allocatee's investment committee. Such documentation should detail the rates, terms and flexible features of the QLICI and document how non-NMTC rates, terms and features were adjusted for the NMTC product, borrower and project.

If the Allocatee is basing its determination on market comparables, it must retain all documentation that can demonstrate what the comparable market rate was at the time of closing the QLICI. For example, if the CDE benchmarks its returns to a specified market indicator (e.g., 200 points over the 7-year Treasury rate), then the Allocatee must retain documentation demonstrating: 1) what the market indicator was on the day the transaction closed; and 2) that the interest rate offered by the Allocatee was sufficiently lower than the comparable market offering.

The CDFI Fund will require a CDE to identify, in its TLR, whether a transaction met the requirements for better rates and terms, as well as the applicable market comparable. The CDE must also maintain supporting documentation in its files, should the CDFI Fund request it. As stated above, documentation must reflect information relevant at the time the loan and/or investment was made.

32. What supporting documentation does an Allocatee need to retain in order to demonstrate compliance with the Targeted Distressed Communities identified in the Allocation Agreement by investing in Areas of Higher Distress? What resources are available to determine if a census tract is in an approved Area of Higher Distress?

In addition to CIMS, which provides Non-Metropolitan status, poverty rates, Median Family Income (MFI) percentages and unemployment rates, the CDFI Fund provides several links on its website to assist Allocatees.

When completing the Areas of Higher Distress section in AMIS, Allocatees should respond to these criteria based on the requirements found in its Allocation Agreement, as only some of the criterion might be applicable. Allocatees are advised to retain all relevant information in support of its decision to invest in such areas. Supporting documentation for the Areas of Higher Distress requirement may include: statistical indices of economic distress such as poverty rates, MFI or unemployment rates at the census tract level based upon the Census or American Communities Survey (ACS) specified in the Allocation Agreement or other guidance materials; materials from other government programs (e.g., HUD Renewal Communities; EPA Brownfields) demonstrating the area qualified for assistance under those programs; etc. Please visit the “Compliance Monitoring and Evaluation” section on the CDFI Fund’s website for links to the following sites:

- [Brownfield Sites](#)
- [SBA Designated HUB Zones](#)

NOTE: Using Allocations from CY 2006 to CY 2022 round, QLICs made in HUB Zones can only qualify as an area of higher distress to the extent that the QLICs will support businesses that obtain HUB Zone certification by the SBA. A [listing](#) of HUB Zone Certified Firms is available from the SBA.

33. How will the CDFI Fund measure compliance with the newly added Areas of Deep Distress criteria in the CY 2024-2025 Application?
--

If applicable, Schedule 1 of the Allocation Agreement will reflect the Applicant's commitment to making the designated percentage of QLICs in census tracts located in any areas identified as:

- 1) Deep Distress:
 - a. Census tracts with poverty rates greater than 40%; or
 - b. Census tracts,
 - i. if located within a Non-Metropolitan Counties, with a median family income that does not exceed 40% of the applicable area median family income; or
 - ii. if located within a Metropolitan Area, have a median family income that does not exceed 40% of the greater of the statewide median family income or the Metropolitan Area median family income; or
 - c. Census tracts with unemployment rates at least 2.5 times the national average.
- 2) NMTC Native Areas: Federal Indian Reservations, Off-Reservation Trust Lands, Hawaiian Home Lands, and Alaska Native Village Statistical Areas.
- 3) High Migration Rural Counties: census tracts in High Migration Rural Counties (counties that experienced net out-migration of inhabitants of at least 10% during the 20-year period ending with the year in which the most recent census was conducted) with a median family income at or below 85% of the applicable area median family income.
- 4) US Island Areas: Island Areas of the United States, as determined by the United States Census Bureau including Puerto Rico, U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa.

For example, a CDE receives a \$50 million allocation and has committed to use 97 percent of its QEIs to make QLICs, for total expected QLICs of \$48.5 million. In addition, the CDE agrees to a 25% commitment to making QLICs in the Areas of Deep Distress. The CDE makes a \$9.7 million QLICI to a QALICB located in a census tract with unemployment rate of at least 2.5 times the national average. The \$9.7 million transaction is 20% of the total expected QLICs (\$9.7 million/\$48.5 million) that will count towards the commitment to Areas of Deep Distress. The CDE will need to make additional QLICs of at

least \$2.425 million in census tracts located in areas identified as 1) Deep Distress, 2) NMTC Native Areas, 3) High Migration Rural Counties, or 4) US Island Areas to meet the 25% commitment to making QLICIs in the Areas of Deep Distress.

Generally, any QLICI invested in Deep Distressed Communities will count towards the required investment percentage stated for Targeted Distressed Communities.

34. How will the CDFI Fund measure compliance with meeting the requirement of Section 3.2(h) Targeted Distressed Communities or the “Deep Distress” criteria for a QALICB with tangible property in several census tracts?

The CDFI Fund will determine compliance with the “Targeted Distressed Communities” by aggregating data at the QALICB level (e.g., the “project level” in AMIS). A QLICI into a QALICB with locations/assets across multiple census tracts will be considered a QLICI into a specific Targeted Distressed Community based on elements of the QALICB qualification criteria. For example, a QLICI into a QALICB that meets the criteria below:

- A. At least 50% of the total gross income is from the active conduct of a qualified business in the eligible Targeted Distressed Community; and
- B. At least 40% of the use of tangible property of the business is within the eligible Targeted Distressed Community; and
- C. At least 40% of the services performed by the business’ employees are performed in the eligible Targeted Distressed Community.

Alternatively, the requirement under A is considered met if the requirement under B or C is met at 50%. In instances where the QALICB has no employees, the CDE will satisfy requirement C by meeting the tangible property criteria (requirement B) at 85%.

CDEs must demonstrate and maintain records showing that the QLICI meets the criteria for being in the specific Targeted Distressed Community.

35. Is there a source to determine the unemployment rate for a census tract?

Yes. The CDFI Fund utilizes the Census or ACS data when determining if a census tract’s unemployment rate is 1.25, 1.5 or 2.5 times greater than the national average. Unemployment data for individual census tracts can be found in [CIMS](#) and in the tabular data [files](#).

For Allocatees using the 2011-2015 ACS data, the national unemployment rate for the 50 states, the District of Columbia, Puerto Rico and Island Areas of the United States (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and the US Virgin Islands) is 8.3%.

For Allocatees using the 2016-2020 ACS data, the national unemployment rate for the 50 states, the District of Columbia, Puerto Rico and Island Areas of the United States (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and the US Virgin Islands) is 5.4%.

36. How does the CDFI Fund define activities that “support health related services” as it relates to QLICIs in federally designated Medically Underserved Areas (MUA) or geographic Health Professional Shortage Areas (HPSA) as designated by Health Resources & Service Administration (HRSA)?

In order for an investment to meet the criterion of being in an Area of Higher Distress due to its location in Medically Underserved Areas or, as allowed beginning with CY 2024-2025 Allocatees, geographic Health Professional Shortage Areas, the QALICB must provide medical and health related services to communities or populations in the MUA or HPSA or increase access to health related services in the MUA or HPSA. For the purposes of compliance, the CDFI Fund will consider a QLICI to support health related services if the QLICI meets at least one of the following criteria:

1. The QLICI is used to finance a QALICB that provides direct medical and dental care, including screenings, diagnostic and preventive care, or support services that contribute directly to that care (e.g., referrals/case management, chronic disease management, transportation necessary for adequate patient care, etc.).
2. The QLICI is used to finance a QALICB that provides non-medical care such as mental health care, behavioral health care, substance abuse treatment (including assessments); physical and/or occupational therapy; or support services that contribute directly to that care (e.g., referrals/case management, chronic disease management, transportation necessary for adequate patient care, etc.).
3. The QLICI is used to finance real estate activities where at least 50% of the rentable square footage is leased to businesses providing health related services.

37. How will the CDFI Fund determine if a project is located in a census tract designated as Low-Income and Low-Access to supermarkets, supercenters, or large grocery stores using USDA’s Food Access Research Atlas?

Provided that a project is located in any of the four “Low-Income and Low-Access” criteria in the USDA’s [Food Access Research Atlas](#) (FARA) it would be deemed to be in an Area of Higher Distress for the purposes of the NMTC program, to the extent QLICI activities will increase access to healthy food (fresh meat, vegetables, and fruits) through vehicles such as a food pantry, food bank, supermarket, grocery

store etc. Please note, USDA's Food Access Research Atlas has multiple versions of data files and uses 2010 census tracts. QLICs closed on or after January 1, 2024 must use the 2019 version of the "Low-Income and Low-Access" data file to determine if a QALICB is located in a qualified census tract.

38. How does the CDFI Fund define “other similar federal/state/local programs targeted towards particularly economically distressed communities”?

While only applicable to CY 2023 Allocations and earlier, the federal, state or local program designation should be for a specific geographic area, as opposed to a population, and preferably where the federal, state or local government has designated the area for redevelopment via legislation. The CDFI Fund will not pre-approve such programs. Allocatees are advised to maintain all relevant documentation regarding these program designations in its files in the event the CDFI Fund requests the documentation. Some examples of local areas that qualify for designation include:

- A local Tax Increment Financing (TIF) district;
- An area affected by a major plant or facility closing resulting in permanent layoffs;
- State Enterprise zone programs;
- Federally designated Promise Zones;
- Impacted Coal Counties;
- Base Realignment and Closure areas;
- An area of unusually high commercial vacancy rates;
- An area designated for the establishment of a regional technology/business center;
- Qualified Opportunity Zones

39. All Allocatees are required to invest substantially all (generally 85%) of their QEIs as QLICs. Section 3.2(j) of the Allocation Agreement may require an Allocatee to invest an even higher percentage of QEIs (e.g., 95%; 100%) as QLICs, based on representations made by the Allocatee in its Allocation Application. How does the CDFI Fund monitor compliance with Section 3.2(j) of the Allocation Agreement?

(A) All Allocatees must be able to demonstrate that they initially made QLICs in the amount specified in their Allocation Agreements.

Example: If an Allocatee received QEIs totaling \$1 million and is required in its Allocation Agreement to invest 100% of its QEIs as QLICs, then it must be able to demonstrate that \$1 million was initially invested as QLICs.

(B) If an Allocatee subsequently receives repayments of principal from the QLICs (e.g., amortizing loan payments, unexpected return of principal), but consistent with applicable IRS regulations does not reinvest these proceeds into other QLICs, then the Allocatee will be treated as fulfilling the requirements of Section 3.2(j) – notwithstanding the fact that the Allocatee is no longer “fully invested” at the initial percentage.

Example: An Allocatee received QEIs totaling \$1 million and is required in its Allocation Agreement to invest 100% of its QEIs as QLICs. It makes a loan of \$1 million to a QALICB. In accordance with the terms of the loan, the QALICB makes interest-only payments for two years, and beginning in year three, some small payments of principal along with the interest payments. At the end of the seven-year compliance period, the principal payments total less than \$150,000 – or 15% of the \$1 million loan to the QALICB. This amount of repayment is sufficiently minimal as to not trigger reinvestment requirements under the IRS regulations. The Allocatee is in compliance with 3.2(j).

(C) If an Allocatee subsequently receives repayments of principal from the QLICs that are sufficient enough to trigger reinvestment requirements under the IRS regulations, the Allocatee is required to reinvest those proceeds in the same percentage as is required in the Allocation Agreement.

Example: An Allocatee received QEIs totaling \$1 million and is required in its Allocation Agreement to invest 100% of its QEIs as QLICs. It makes a loan of \$1 million to a QALICB. The QALICB repays the entirety of the loan after two years. The Allocatee must reinvest the entire \$1 million into a QLICI within the timeframes required under IRS regulations in order to be compliant with Section 3.2(j).

NOTE: Consistent with IRS regulations regarding reinvestment, the CDFI Fund will not require Allocatees to reinvest principal repayments that are received in year seven of the compliance period.

40. Does Section 3.3(h) of my Allocation Agreement (prohibitions on real estate refinancing), allow for the “take-out” of both debt and equity?

Yes. Section 3.3(h), which is applicable to all Allocatees that received allocations in the CY 2005 and later rounds, generally prohibits Allocatees from using QEI proceeds to re-finance loans that were made to businesses whose principal activity is the rental to others of real property. As provided for in Section 3.3(h), this general prohibition does not apply in the case of financing that is used to “take-out” debt or equity that was used to finance certain eligible prior construction or acquisition activities.

41. Can takeout financing apply to an amortizing loan under Section 3.3(h)(v) of the Allocation Agreement?

Yes. The intent of 3.3(h)(v) of the Allocation Agreement is to prevent the refinancing of permanent loans solely to reduce financing costs to the QALICB. The structure (amortizing or interest-only) of the underlying loan to be taken out is immaterial. The Allocatee must determine whether the take-out financing for the underlying loan fits the intent of section 3.3(h)(v) – namely, to prevent the refinancing of permanent loans.

42. What is the CDFI Fund’s expectation regarding 3.3(k) of the Allocation Agreement regarding an Allocatee’s monitoring of a QALICB’s violation of applicable Federal anti-discrimination laws, including a QALICB providing employment or financial preferences or set-asides based on any person’s race, ethnicity, or sex, in a manner that is inconsistent with any applicable Federal anti-discrimination laws?

The intent of Section 3.3(k) in the CY 2024-2025 (and newer) Allocation Agreement is to ensure that Allocatees adhere to governing body approved written policies and procedures for reviewing projects or businesses prior to making a QLICI, to determine whether the QALICB was in violation of applicable Federal anti-discrimination laws, including a QALICB providing employment or financial preferences or set-asides based on any person’s race, ethnicity, or sex. Annually, via the submission of the ILR, an Allocatee will be able to attest to its efforts to maintain compliance with this provision.

At minimum, the policies and procedures should specify the timeframes for when the Allocatee conducts its reasonable diligence activities, and the methods by which it investigates and documents a QALICB’s compliance with applicable Federal anti-discrimination laws.

43. What is a Material Event?

The CDFI Fund defines a “Material Event” as an occurrence that affects an organization’s strategic direction, mission, or business operation and, thereby, its status as a certified CDFI or CDE, and/or its compliance with the terms and conditions of its Allocation Agreement.

If you have a question about whether something constitutes a Material Event, it is best to report the event and allow the CDFI Fund to make that determination. The Material Event Form can be submitted via the CDFI Fund’s AMIS as a document attachment to a Service Request.

The list below provides examples of Material Events that must be reported to the CDFI Fund within 30 calendar days (or as specified in the Allocation Agreement) of the occurrence of such event. Please note that this list is not exhaustive:

- a. An Event of Default, as that term is defined in Section 8.1 of the Allocation Agreement, or any event which upon notice or lapse of time, or both, would constitute an Event of Default. This includes failure to meet the requirements articulated in Schedule 1 and Section 3.2 of the Allocation Agreement.
- b. A merger, acquisition, or consolidation with another entity.
- c. A change in the Controlling Entity identified in any Allocation Agreement or the Controlling Entity no longer having any ownership or management interest in the Allocatee and/or no longer having Control over the day-to-day management and operations (including investment decisions) of the Allocatee.
- d. A change in the organization’s legal status (e.g., dissolution or liquidation of the organization, bankruptcy proceedings, receivership, etc.). The filing of any bankruptcy proceeding for the appointment of a conservator for the Allocatee or any of its Affiliates, including the Controlling Entity.
- e. An event which materially changes the strategic direction, mission, or business of the organization such that the organization no longer meets one or more CDFI or CDE certification requirement (e.g., no longer providing loans or equity investments).
- f. Changes in business strategy resulting in the Allocation being used in a manner that is generally inconsistent with the business strategy (including, but not limited to, the proposed product offerings, business type, fees and markets served) set forth in the Allocation Application.
- g. An event that results in a change in control of the Allocatee or Subsidiary Allocatee.
- h. A change in the composition of the organization’s Board of Directors (or other governing body) such that the percentage of the governing or advisory board members representing the organization’s Service Area is reduced below the required percentage.

- i. The replacement of any key management officials (e.g., the Executive Director, the Chief Financial Officer, the Board Chairperson or their equivalents) that had been named in the Allocation Application.
- j. A proceeding, including an enforcement action, instituted against the Allocatee, Affiliate of an Allocatee (including the Controlling Entity) by or before any court, governmental or administrative body or agency, which proceeding, or its outcome could have a material adverse effect upon the financial condition or business operations of the Allocatee.
- k. A material adverse change in the condition, financial or otherwise, or operations of the Allocatee that would impair the Allocatee's ability to carry out the authorized uses of the allocation.
- l. The debarment, suspension, exclusion or disqualification, by the Department of Treasury, or any other Federal department or agency, of any individual or entity (or principal thereof) that received any portion of the allocation in a procurement or non-procurement transaction, as defined in 31 C.F.R. §19.970.
- m. The receipt of an Adverse Opinion, Qualified Opinion, or Disclaimer of Opinion in audited financial statements of the Allocatee.
- n. The occurrence of any event that may be a recapture event pursuant to IRC § 45D(g) and 26 C.F.R. Part 1.45D-1(e)(2).
- o. The failure of the Allocatee to issue QEIs equal to the total amount of its NMTC Allocation under the Allocation Agreement within five (5) years of the Allocation Effective Date.
- p. The failure of a QALICB or project that received QLICIs including but not limited to bankruptcy, cessation of operations or liquidation of a QALICB.
- q. Any adverse finding by the Appropriate Federal Banking Agency related to the Allocatee, its Affiliates, including the Controlling Entity.
- r. Any change to the Allocatee's responses to the Assurances and Certification section of the Allocation Application.
- s. Changes in an organization's Unique Entity Identifier Number (UEI), Taxpayer/Employee Identification Number (TIN/EIN), or organization name change.

44. Section 6.9 of the Allocation Agreement requires CDEs to report Material Events to the CDFI Fund within a specified number of days of the occurrence stated in the Allocation Agreement. How do I report a Material Event to the CDFI Fund?

The occurrence of a Material Event must be reported through the Certification of Material Events form that is now required to be submitted via a specific module within an AMIS Service Request. Allocatees must use this form to identify the nature of the event. The CDFI Fund will then determine whether it is material and affects the Allocatee's ability to remain certified as a CDE or remain compliant with its Allocation Agreement.

To assist users, the CDFI Fund has provided the following tools on its [website](#):

- [Answers](#) to commonly asked questions about Material Events.
- A [user guide](#) on how to submit a Certification of Material Events form.
- A [video tutorial](#) demonstrating how to submit a Certification of Material Events form.

For reference purposes only, a [hardcopy](#) of the Certification of Material Events form is also available on the CDFI Fund's website.

45. What are the restrictions on the use of Bond Proceeds under the CDFI Bond Guarantee Program in NMTC related activities?
--

Bond Proceeds may only be combined with NMTC derived equity (i.e., leveraged loan) to make a QEI in a CDE or to refinance a QLICI at the beginning of the seven-year NMTC compliance period under the following circumstances.

If an Eligible CDFI uses Bond Loan proceeds to finance a leveraged loan in a NMTC transaction, the Eligible CDFI must provide either or both:

- (1) Additional collateral in the form of Other Pledged Loans or Cash Collateral;
- (2) A payment guarantee or similar credit enhancement; and/or
- (3) Other assurances that are approved by Treasury.

The additional collateral, credit enhancement, and/or assurances must remain in force during the entire seven-year NMTC compliance period and comply with the Secondary Loan Requirements.

Further, Bond Proceeds may not be used to refinance a leveraged loan during the seven-year NMTC compliance period. Bond Proceeds may be used to refinance a QLICI after the seven-year NMTC compliance period has ended so long as all other programmatic requirements are met.

Allocatees are encouraged to review the latest Notice of Guarantee Availability (NOGA) for additional details.

46. What are the restrictions on the use of QLICI proceeds to repay or refinance any debt or equity provider, or an Affiliate of any debt or equity provider, whose capital was used, directly or indirectly, to fund a QEI?

Beginning with the CY 2015-2016 round, any debt or equity provider, or Affiliate of any debt or equity provider, whose capital was used, directly or indirectly, to fund a QEI, may receive QLICI proceeds to repay or refinance reasonable expenditures that are incurred by the debt or equity provider (or Affiliate) and that are directly attributable to the qualified business of the QALICB only if the expenditures (i) were incurred no more than 24 months prior to the date on which the QLICI transaction closes, or (ii) represent no more than 5% of the total QLICI proceeds from the QEI. These rules only apply to a debt or equity provider (or Affiliate) whose capital was used, directly or indirectly, to fund a QEI and **do not** apply to QLICI proceeds used to repay or refinance a debt provider to the QALICB, if such debt provider (or its Affiliate) has not itself incurred expenditures in connection with the business of the QALICB and did not (directly or indirectly) fund a QEI.

Reasonable expenditures are those incurred for a legitimate business purpose that occur during the normal course of operation and must be similar in amount and scope when compared to expenditures by a similar entity for a similar project under similar circumstances. Refinance includes transferring cash or property directly or indirectly to the debt or equity provider or Affiliate of the debt or equity provider.

Of note, the IRS has not issued guidance on what costs can be repaid or refinanced with QLICI proceeds under IRC §45D. Until such guidance is issued, the CDFI Fund supports the use of the above parameters for transactions involving the repayment or refinancing of expenditures. CDEs must be able to document that the past expenditure and the corresponding payment occurred within the specified timeframes.

The following example is offered for additional clarity.

Example:

Entity A is a debt or equity provider, or Affiliate of a debt or equity provider, whose capital was used, directly or indirectly, to fund a QEI the proceeds that were used to make a QLICI. Within 24 months prior to the closing of the QLICI transaction, Entity A expends \$1,000,000 to obtain development permits, begin construction, acquire or install equipment, and acquire other property related to the project; all of which represent reasonable expenditures directly attributable to the qualified business of the QALICB, and for which Entity A has retained documentation (i.e., invoices, receipts, proof of payment, etc.). More than 24 months prior to the closing of the QLICI, Entity A expends \$700,000 of documented, reasonable expenditures directly attributable to the qualified business of the QALICB. The QALICB receives \$10,000,000 in total QLICIs from the QEI funded by Entity A.

24-month provision

Out of \$10,000,000 in total QLICIs, up to \$1,000,000 of the QLICI proceeds can be used to repay Entity A for the documented expenditures which occurred within 24 months of the closing of the QLICI or repay an Affiliate of Entity A whose capital was used directly or indirectly to fund the QEI (e.g., a leverage loan). The remaining QLICI proceeds (\$9,000,000) could be used for additional expenditures such as operating needs, working capital needs, equipment, additional construction expenditures, or other needs related to the project or business of the QALICB.

OR**5% provision**

The QALICB may use up to 5% of QLICI proceeds to reimburse documented, reasonable expenditures that are directly attributable to the qualified business of the QALICB regardless of when those expenditures were incurred. In this scenario, if the total QLICIs to the QALICB were \$10,000,000, the QALICB could use up to \$500,000 to reimburse Entity A for expenditures that were incurred at any time prior to the QLICI closing.

In summary, of the \$1,700,000 in documented, reasonable expenditures directly attributable to the qualified business of the QALICB incurred by Entity A, the QALICB may elect to either reimburse the full amount of reasonable expenditures incurred within 24 months of the QLICI closing date (\$1,000,000) or reimburse up to 5% of the QLICI proceeds (\$500,000) of reasonable expenditures incurred at any time prior to the QLICI closing date. It may not do both.

47. How will the CDFI Fund monitor the restriction on the use of QLICI proceeds to directly or indirectly repay or refinance any debt or equity provider, or Affiliate to any debt or equity provider, whose capital was used, directly or indirectly, to fund the QEI beginning with the CY 2015-2016 NMTC Allocation Round?
--

CDEs must include such covenants in financing agreements with QALICBs as may be necessary to reflect this restriction. The agreements containing such covenants must be available for inspection by the CDFI Fund. In addition, the CDE should collect information as may be necessary and maintain documentation to trace the use of QLICI proceeds by the QALICB at the time the initial QLICI is made and at least annually thereafter. In situations where the QALICB will directly or indirectly repay or refinance any debt or equity provider or Affiliate of any debt or equity provider, whose capital was used, directly or indirectly, to fund a QEI under the 24-month or 5% exception rules, the CDE should maintain documentation demonstrating that the reimbursements can be directly traced to actual expenditures by the debt or equity provider (or their Affiliate) and are directly attributable to the qualified business of the

QALICB. This documentation must be available for inspection by the CDFI Fund. Documentation to support compliance with this restriction must be retained for the entire period of the QLICI in the QALICB plus three years or the seven-year compliance period plus three years, whichever is shorter.

48. Can a QALICB use QLICI proceeds to repay or refinance any debt or equity provider, or Affiliate of any debt or equity provider, and to monetize an asset owned by, contributed, sold, or otherwise transferred to the QALICB (or an Affiliate of a QALICB) including but not limited to the accreted value of an asset?
--

Beginning with the CY 2015-2016 round, a QALICB is only permitted to use QLICI proceeds to repay or refinance a debt or equity provider (or Affiliate of a debt or equity provider) whose capital was used directly or indirectly to fund the QEI subject to the provisions outlined in Question 44 of this document. The QALICB may use QLICI proceeds to repay or refinance expenditures incurred by the debt or equity provider (or their Affiliate) for the acquisition of any asset contributed, sold, or otherwise transferred to the QALICB to the extent such asset represents a reasonable expenditure directly attributable to the qualified business of the QALICB. The amount that can be repaid or refinanced for such an asset is limited to the asset's original cost and not to any accreted value obtained by appraisal or other valuation methods. Such transactions remain subject to the 24-month rule or 5% rule indicated in Question 44 above.

Example: Limitation to actual costs of acquisition

Entity B is a debt or equity provider, or Affiliate of a debt or equity provider, whose capital was used, directly or indirectly, to fund a QEI the proceeds of which were used to make a QLICI. Entity B acquired property for \$700,000 less than 24 months prior to the QLICI closing that represents a reasonable expenditure directly attributable to the qualified business of the QALICB, the current appraised value of the property is \$1,000,000. More than 24 months prior to the closing of the QLICI, Entity B acquired equipment for \$500,000 (currently appraised at \$600,000), which represents a reasonable expenditure directly attributable to the qualified business of the QALICB. The QALICB receives \$10,000,000 in total QLICIs from the QEI funded by Entity B.

The QLICI proceeds could only be used to reimburse up to the original cost of acquisition (not the appraised value) of both the property and equipment (\$700,000 + \$500,000 = \$1,200,000) subject to the 24 month or 5% limitations. The QALICB may elect to either reimburse the full amount of reasonable expenditures incurred within 24 months of the QLICI closing date (\$700,000) or reimburse reasonable expenditures that represent up to 5% of the QLICI proceeds incurred at any time prior to the QLICI closing date (\$500,000). It may not do both.

The prohibition on the use of QLICI proceeds to repay or refinance any debt or equity provider, or an Affiliate of any debt or equity provider, whose capital was used, directly or indirectly, to fund a QEI does not apply to allocation awards made prior to the CY2015-2016 round. Question 44 and 45 of this document supplement Question 46.

49. How will the CDFI Fund evaluate adherence to 3.3(i) of the Allocation Agreement as it pertains to NMTC activities that are “generally consistent” with the Application?

In order to satisfy Section 3.3(i) of the Allocation Agreement, an Allocatee must ensure that no more than 15% of any one Allocation is used to finance projects that are inconsistent with the business strategy, including but not limited to the proposed product offerings, business type, fees and markets served (i.e., service area) and notable relationships, set forth in the Allocation Application related to that Allocation.

Example 1: Business Type.

If the Allocation Application pipeline for CDE XYZ for a prior year Allocation Application includes investments in business types consisting of retail-anchored mixed-use real estate as well as community facilities, the CDFI Fund expects that CDE XYZ will provide QLICIs to these types of businesses. Subsequently, CDE XYZ provided a QLICI to a hotel (i.e., hospitality business), which was not discussed as a project or QALICB. This would be considered inconsistent with the business strategy proposed in the Application if the amount of the QEI used for hotel QLICI is more than 15% of the Allocation, it will be considered a violation of Section 3.3(i) of the Allocation Agreement.

Example 2: Fees.

XYZ Development Fund’s Allocation Application indicates that financial Product 1 (using an A/B note structure) will have all-in fees of 7.5% consisting of 4% upfront fees (charged at the investment fund level and/or charged at the Sub-CDE level) and 3.5% ongoing fees (charged during the seven-year compliance period); and financial Product 2 (revolving small dollar fund) will have all-in fees of 8% consisting of 3% upfront fee (charged at the investment fund and/or Sub-CDE level), 1% ongoing fee (during the seven-year compliance period) and 4% back end fee (collected at close-out, i.e. after the seven-year compliance period). If awarded, the CDFI Fund expects that XYZ Development Fund’s QLICIs for that allocation to have fees with a weighted average of 7.5% for Product 1 and a weighted average of 8% for Product 2.

In the evaluation of fees, the CDFI Fund will consider all fees, payments, loans, or other remuneration, whether paid or directed to the CDE, a CDE Affiliate, or other third parties. The CDFI Fund will also assess all fees (including payments, loans or other remuneration collected) with the exception of legal and accounting costs related to compliance with 45D, including transaction structuring, legal opinions, financial models/projections, auditing and tax payments.

Of note, Allocatees may serve distressed areas under Section 3.2(h) of the Allocation Agreement that they did not propose to serve in their Allocation Applications. Such transactions will not be considered a violation of Section 3.3(i). Similarly, the CDFI Fund recognizes that the size of QLICI may fluctuate depending on the need of the QALICB. Provided that the proposed product(s), fees, QALICB type(s) funded; service areas, and notable relationships, etc. are generally consistent with the Application that was awarded, the size of the QLICI would not be considered under Section 3.3(i).

50. What is the expectation of Allocatees regarding Section 4.13 of the Allocation Agreement?

The intent of Section 4.13 of the Allocation Agreement is to ensure that Allocatees adhere to governing body approved written policies and procedures for selecting projects or businesses prior to making a QLICI, to determine whether the QALICB will be able to remain financially viable and operational throughout the tax credit compliance period and through a successful exit of the QLICI.

Allocatees are expected to adopt and adhere to governing body approved written policies and procedures in identifying how the Allocatee will select NMTC investments. In addition to ensuring that NMTC investments meet §45D, the Allocatee's policies and procedures will address a QALICB's ability to remain financially viable and operational during the term of the QLICI and through a successful exit of the QLICI. At minimum, the policies and procedures will address the Allocatee's due diligence activities, including but not limited to: 1) the financial considerations of the borrower or investee, (e.g. the QALICB's ability to repay the QLICI that is in the form of a loan or to pay dividends, if in the form of an equity investment; assessment of QALICB's guarantees or other collateral, etc.); 2) the likelihood of project completion related to the asset(s) financed with NMTCs; 3) assessment of management team's experience and/or expertise relevant to project completion and the successful operation of the QALICB; and 4) market demand for the QALICB's services and/or products.

The Allocatee's policies and procedures are expected to address other due diligence areas as needed, based on its business strategy and the types of businesses financed with its NMTC Allocation. The policies should indicate the titles of the individual(s) that have the authority to approve QLICIs.

51. What does Section 6.12 of the Allocation Agreement require?

Section 6.12 of the Allocation Agreement is intended to add transparency between the Allocatee and the QALICB. Allocatees are required to disclose to the QALICB, in a separate stand-alone document, any and all direct and indirect NMTC-related transaction costs related to the QLICI(s) (e.g., legal opinions, financial modeling/projections, audit, tax preparation, and accounting expenses), fees and compensation

that the Allocatee is assessing the QALICB or otherwise requiring the QALICB to incur prior to, during, and/or at the conclusion of the seven-year QLICI compliance period (“QALICB Fees and Transaction Costs”). All such amounts shall be consistent with amounts reflected in the closing documents for the respective QLICIs, including any forecast document (such as a financial model or similar document) that reflects any QALICB Fees and Transaction Costs. The Allocatee is required to record in the TLR all transaction costs, fees and compensation assessed to the QALICB. The Allocatee is only required to make one disclosure for each set of QLICIs related to a project (e.g., a discrete set of activities by the QALICB) that have closed at the same time. For examples of QALICB Fees and Transaction Costs, refer to the latest version of the NMTC Allocation Application, its guidance and the Allocatee Transaction Level Report Data Point Guidance for AMIS.

Beginning with the CY2022 Allocatees, in multiple-CDE transactions, the Allocatee shall combine its disclosure of QALICB Fees and Transaction Costs into one document that will include the QALICB Fees and Transaction Costs of all CDEs involved in the transaction. If there are shared expenses (e.g., CDEs agreed to share counsel or financial modeling consulting) each CDE should disclose that portion of the fees that are attributed to its own QLICIs. For example, if your CDE agreed to share financial modeling expenses with one other CDE equally, each CDE would attribute 50% of the costs of modeling expense in the disclosure. The disclosure will be signed by the Allocatee’s Authorized Representative, and in the case of a multiple-CDE transaction, the combined disclosure will be signed by the Allocatee’s Authorized Representative and the Authorized Representatives of all other CDEs involved in the transaction. The disclosure statement can be retained either in hard or electronic copy and should be available for review upon request from the CDFI Fund.

Of note, pre-CY2022 Allocatees are not prohibited from employing a combined disclosure form for their multi-CDE deals and can fulfil the “stand-alone document” requirement using a combined form.

A. What is the timing of providing the disclosure statement to the QALICB?

The Allocatee should provide the QALICB with a disclosure statement containing estimated costs at the later of (i) execution of the initial term sheet, or (ii) the execution of the initial term sheet of the last CDE in a multiple CDE transaction, recognizing that certain items will be subject to change up to the closing of the transaction. In addition, the Allocatee must provide the QALICB with a final copy of the disclosure statement at closing. For the estimated costs in the initial term sheet, the CDFI Fund encourages Allocatees to avoid unrealistically low initial estimates of QALICB Fees and Transaction Costs. Beginning with the CY2022 Allocatees, in multiple-CDE transactions, the Allocatee shall combine its disclosure of QALICB Fees and Transaction Costs into one disclosure statement that will be provided at (ii) as stated above and shall also provide a final copy of the disclosure statement at closing.

B. Is the CDFI Fund proscribing the format of the disclosure statement?

The CDFI Fund is not endorsing or requiring Allocatees to adopt a specific disclosure statement format. However, Allocatees are required to develop a disclosure statement format that provides the QALICB with the level of detail outlined in Section 6.12 of the Allocation Agreement. The disclosure statement should be a stand-alone document presented in a short, easy to understand format approximately - ideally one page in length.

C. Does the CDFI Fund have an example of a QALICB disclosure statement that meets the requirements of Section 6.12 of the Allocation Agreement?

Below is a sample QALICB disclosure statement provided for illustration purposes only. The CDFI Fund is not endorsing or requiring Allocatee to adopt a specific disclosure statement format.

Sample QALICB Disclosure -Debt QICI													
<table><tr><th colspan="2">Allocation Conversion Calculation</th></tr><tr><td>Total QEI</td><td>\$12,700,000</td></tr><tr><td>NMTCs Available (39%)</td><td>\$4,953,000</td></tr><tr><td>Investment Price</td><td>\$0.78</td></tr></table>						Allocation Conversion Calculation		Total QEI	\$12,700,000	NMTCs Available (39%)	\$4,953,000	Investment Price	\$0.78
Allocation Conversion Calculation													
Total QEI	\$12,700,000												
NMTCs Available (39%)	\$4,953,000												
Investment Price	\$0.78												
Funding Item	Description	% of NMTCs	Gross Amt.	Cumulative Balance	Comment								
NMTCs Available	Allocation Conversion (above)	100.00%	\$4,953,000	\$4,953,000	Total NMTCs to be claimed by Investor								
Investor Gross Revenues	Investment Contributed Per Credit Offered (\$0.78)	(22.00%)	(\$1,089,660)	\$3,863,340	Discount taken by Investor to derive value of NMTCs								
NMTC Dollars	Gross NMTC Subsidy Available to Project	78.00%	\$3,863,340	\$3,863,340	Initial Funds Available to the Project								
Estimated Costs:	Investment Fund Fees	(3.95%)	(\$195,571)	\$3,667,769	Disclosed in the term sheet								
	CDE Up Front Fees	(5.13%)	(\$254,000)	\$3,413,769	Paid at Closing								
	Ongoing CDE Fees	(11.67%)	(\$577,850)	\$2,835,919	Asset Mgmt. Fees over 7 Years (\$82,550 annually)								
	3rd Party Closing Costs	(6.06%)	(\$300,000)	\$2,535,919	Legal, Financial Modeling, Consultants, etc. Paid at Closing								
	Other Ongoing 3rd Party Costs	(6.27%)	(\$310,471)	\$2,225,448	Audit, Tax, etc. over 8 Years								
				\$2,225,448	Retained Tax Credit Subsidy								
	Total Estimated Costs	(33.07%)	(\$1,637,892)	\$2,225,448									
Estimated Net Benefit to Project before Interest Savings		44.93%	2,225,448	\$2,225,448									
Market Interest Rate Comparable		6.50%			See compliance FAQ #29 documenting better rates & terms								
Gross Interest Rate Subsidy		31.36%	\$1,553,265	\$3,778,713	Estimated market interest expense (over 7 years)								
Actual Interest Expense		(12.85%)	(\$636,701)	\$3,142,012	Estimated QICI interest expense (over 7 years)								
Interest Rate Savings Net Benefit Over Initial 7-year period		18.51%	\$916,564	\$3,142,012									
Total Estimated Net Benefit to Project		63.44%	\$3,142,012	\$3,142,012									

D. On what basis should the “costs” be disclosed in the disclosure statement to the QALICB?

The CDE should present the costs in dollar amounts and as a percentage of the total amount of the NMTCs generated, similar to the sample QALICB disclosure statement in this FAQ. CDEs will

be responsible for collecting complete direct and indirect transaction costs related to the QLICIs, including those paid to third parties (e.g., legal, accounting, audits, tax preparation, etc.).

E. How should the Net Benefit be calculated with respect to an Equity QLICI?

One possible method to calculate the “Net Benefit to Project” with respect to an equity QLICI may be to determine the excess of (i) costs of an assumed market interest rate comparable as if the investment were made as a loan over (ii) a zero-interest rate cost assigned to distributions made with respect to the equity investment.

52. How should an Allocatee report QALICB consulting fees?

The QALICB disclosure form (and the Fees and Transaction Costs section of the TLR) should capture all consulting fees and costs to the QALICB including those associated with consultants that the QALICB chooses to engage if those fees and costs are being paid from NMTC proceeds at any level of the NMTC transaction (e.g., investment fund, from the QEI, or from the QLICI).

If the CDE is requiring a QALICB to engage with a consultant as a condition of receiving QLICIs, this should be considered an upfront fee and should be reported as such. If the CDE is not requiring a QALICB to engage with a consultant, then this is an upfront transaction cost. In the case of a multiple-CDE transaction, these fees and costs should be divided among participating CDEs using a reasonable allocation method agreed upon by all parties (e.g., pro-rate by QEI, evenly split, or another reasonable approach).

D. Reporting and Financial Statements

53. Which organizations are required to submit audited financial statements to the CDFI Fund?

Only Allocatees are required to submit audited financial statements to the CDFI Fund. Submission of an audited financial statement will be required beginning with the first fiscal year in which the Allocatee issues a QEI. Effective June 30, 2011, Subsidiary Allocatees are no longer required to have audited financial statements produced for the CDFI Fund. However, the CDFI Fund reserves the right to request audited financial statements of a Subsidiary Allocatee, if audited financial statements are produced.

54. Will the CDFI Fund accept the audit of an Allocatee's controlling entity, or parent company, if the Allocatee is not separately audited?

Yes. The CDFI Fund will accept the audit of a CDE's controlling entity or parent company if the CDE's activities are fully detailed in a schedule of assets, liabilities, income and expenses of the parent's financial statements. If the audit does not provide these details, the CDFI Fund may require the Allocatee to submit an audit that includes such information.

55. Is a Tax Basis financial statement acceptable in lieu of GAAP prepared financial statement?

Yes. The CDFI Fund will accept financial statements prepared on a tax basis. However, Allocatees are required to utilize the same basis of accounting from year to year. In the event that an Allocatee prepares audited financial statements on a tax basis in one year and changes to GAAP the next year, the CDFI Fund will require that the current year and prior two year's statements be adjusted to GAAP. For example, if Allocatee XYZ prepared its audited financial statements on a tax basis for fiscal year (FY) 2019 and subsequently prepared its FY2020 audited financials using GAAP, the CDFI will require that the FY2019 and FY2018 statements also be revised to conform to GAAP.

56. How will the CDFI Fund treat an audit that has an opinion other than "unqualified"?

The CDFI Fund would view such an occurrence as a Material Event under Section 6.9(b) of the Allocation Agreement and it must be reported to the CDFI Fund. If the CDFI Fund determines that the underlying reasons are significant, it may elect to find the Allocatee in default under Section 8.1 of the Allocation Agreement and may impose one or more of the remedies outlined in Section 8.3.

57. How will an Allocatee fulfill its reporting requirements as outlined in Section 6.5 of the Allocation Agreement?

An Allocatee will submit its Institution and Transaction Level Reports and its QEIs through AMIS. Audited financial statements should be uploaded into AMIS using instructions found in the Allocatee ILR Instructions guide. Allocatees are also required to report on QEIs that have reached the end of the seven-year tax credit compliance period using the QEI “Closeout Report” portal available in AMIS. [Guidance](#) documents are available on the CDFI Fund’s website for the following:

- Institution Level Report
- Transaction Level Report
- QEI Closeout Report

To formally submit a Transaction Level Report, the Allocatee must use the “Final Certification” feature in AMIS. “Final Certification” involves both the reporting of new transactions and data point updates to “active” transactions that were reported in the prior year. Final Certification of the TLR is due within 180 days of the end of an Allocatee’s Fiscal Year.

Interim Certification is a mechanism to time stamp and validate new transactions for the NMTC Application Round and as a means to submit corrected compliance information. This feature enables Allocatees to add transactions as they close throughout the Fiscal Year – thereby reducing the reporting burden at Final Certification.

58. What is the QEI “Closeout Report”?

The CDFI Fund has deployed through AMIS, an electronic portal to assist in aggregating information regarding an Allocatee’s use of QEI proceeds and additional information on the status of the QLICI and QALICB at the end of the tax credit compliance period.

Effective April 2015, Allocatees are required to report on QEIs that have reached the end of the seven-year tax credit compliance period. The QEI Closeout Report must be completed after the TLR and Institution Level Report (ILR) have been submitted. The information entered into the TLR and ILR will then be used to prepopulate the QEI Closeout Report.

The QEI Closeout Report should be completed within 30 days of the Allocatee submitting the annual TLR. Additional [guidance](#) is available on the CDFI Fund’s website.

59. Are Allocatees that have yet to issue a QEI required to submit ILRs and TLRs?

No. Submission of the ILR will be required beginning with the fiscal year in which the Allocatee or Subsidiary Allocatee issues its first QEI. If the first QEI is made by a Subsidiary Allocatee, then the Allocatee will need to submit the ILR for the fiscal year in which the QEI was made. These reports will be required for each fiscal year thereafter, until the Allocation Agreement is terminated.

Submission of the TLR will be required beginning with the fiscal year in which the Allocatee or Subsidiary Allocatee makes its first QLICI. If the first QLICI is made by a sub-Allocatee, then both the Subsidiary Allocatee and the Allocatee will need to submit reports for the fiscal year in which the QLICI was made. This report will be required for each fiscal year thereafter, until the Allocation Agreement is terminated.

60. What if the Allocatee and the sub-Allocatee have differing fiscal year end dates?

All reporting due dates are driven by the Allocatee's fiscal year end date. ILR and TLR reports due dates are always determined by the fiscal year of the Allocatee regardless if any or all of the allocation has been transferred to a Subsidiary Allocatee.

61. Will there be any penalties for late reporting?

Failure to submit required reports by the required deadline may result in default of the Allocation Agreement and penalization through the scoring of future applications to the CDFI Fund. Potential remedies include termination or reallocation of any unused allocations. A default finding might make the Allocatee ineligible to apply for future funding or allocation from the CDFI Fund. Section 8.3 of the Allocation Agreement lists the remedies available to the CDFI Fund when an Allocatee defaults under the terms of the Allocation Agreement. An Allocatee should also refer to the applicable Notice of Allocation Availability (NOAA) for eligibility requirements and any scoring deductions that will result from late reporting.

62. What happens when a Subsidiary Allocatee has completed the seven-year NMTC compliance period?

Once a Subsidiary Allocatee completes the seven-year NMTC compliance period, it may be removed as a party to the Allocation Agreement upon notification to the CDFI Fund. Should the Allocatee choose to dissolve the Subsidiary Allocatee or should the Subsidiary Allocatee choose to become decertified as a CDE, the Allocatee's Authorized Representative must notify the CDFI Fund via the "Sub-CDE Dissolution" portal available in AMIS. In the event that a Subsidiary Allocatee completes its compliance period, exits the NMTC transaction and the Allocatee no longer controls the Subsidiary Allocatee, the CDFI Fund will

rescind the CDE certification status of the Subsidiary Allocatee. Additional [instructions](#) regarding Sub-CDE dissolution is available on the CDFI Fund's website.

By submitting the notice of dissolution via AMIS, the CDFI Fund and Allocatee mutually acknowledges dis-enjoinment to the applicable Allocation Agreement(s). Notwithstanding the preceding, the Allocatee will continue to bear responsibility for any additional reporting associated with the dissolved, decertified or dis-enjoined Subsidiary Allocatee and any information regarding Events of Default, as set forth in the termination section of the applicable Allocation Agreement(s).

63. What happens after an Allocatee completes its seven-year compliance period after issuance of its last QEI?

After the seven-year compliance period, the CDFI Fund will no longer require the submission of audited financial statements, ILR, and TLR. Per section 9.13 of the Allocation Agreement, the Allocation Agreement will automatically terminate two years after the seven-year credit period (as defined in 26 C.F.R. Part 1.45D-1(c)(5)(i)) after the Allocatee issues its last QEI related to its NMTC allocation. An Allocatee wishing to terminate the Allocation Agreement prior to that time should submit a request via the CDFI Fund's AMIS. The request should include name of the Allocatee, allocation control number, date of the Allocation Agreement and the ending date of the final seven-year tax credit period.

E. CDFI Fund's Information Mapping System

64. Can Allocatees rely on data from the CDFI Fund's Information Mapping System (CIMS) for the purpose of determining whether transactions are located in NMTC eligible low-income communities?

Both the CDFI Fund and the IRS will treat as eligible any otherwise qualifying QLICI that is made in a census tract identified in CIMS as being in a NMTC eligible low-income community, provided that the census tract in question was identified as eligible in CIMS at the time the QLICI was closed. As of September 1, 2023, Allocatees must use the 2016-2020 American Community Survey (ACS) eligibility data to determine if QLICIs are in NMTC-eligible Low-Income Communities. Closed shall be defined as an investment for which the Allocatee has distributed cash proceeds from a qualified equity investment to the QALICB or CDE.

It is the CDE's responsibility to determine the location of the facility or project that is funded with a NMTC investment is within a particular census tract. Using an address to geocode the location of the project is one method of determining whether that investment is located in an eligible census tract. **For NMTC compliance purposes, it is the physical location of the facility or project that is of importance.** As such, if the actual location of the facility or project is not accurately represented by the address of the business that the CDE is using for geocoding purposes, the CDE should use another method to determine the census tract of the NMTC investment. There are several other ways for a CDE to determine the location of an investment in a particular census tract including visually confirming that the investment is located in an eligible tract using the street grid, using latitude and longitude coordinates of the investment, or other means that establish and document the census tract where the investment will take place.

CIMS utilizes U.S. Bureau of the Census data; however, slight variations may arise. While other data sources or mapping systems may produce differing results than CIMS, the CDFI Fund and the IRS will guarantee as being eligible only those qualifying areas identified in CIMS. The CDFI Fund will not pre-approve any tracts as eligible that are not already identified as eligible in CIMS. CDEs that make investments in census tracts deemed ineligible in CIMS do so at their own risk of recapture.

65. CIMS indicated that an address is not valid. How do I geocode an address that CIMS cannot validate?

The CDFI Fund offers the following guidance for obtaining a Federal Information Processing Standard (FIPS) code and/or maps for addresses that cannot be validated in CIMS:

1. Log on to CIMS (through AMIS or the [public interface](#)).

2. Select the NMTC link.

If you know the FIPS code:

1. In the left of the search bar, make sure the option for “2020 NMTC Tract” (or the most current Census date) is selected.

2. Enter the 11-digit FIPS code, click enter on keyboard and select the verified FIPS.

3. AMIS will then display a map and characteristics of the selected FIPS.

If you do not know the FIPS code:

Using the Map Search Feature located in the top navigation menu, choose the appropriate criteria.

1. Choose either "County" or "State."
2. Type the county or state name.
3. Selected the correct county or state from the provided list.
4. After the map is displayed, use the left navigator and zoom feature to establish the project's location, using the street grid or other map features as a guide.
5. Click on the map to identify the census tract. The FIPS Code will be displayed in the pop-up box. The 11-digit FIPS Code number is comprised of a 2-digit state number, a 3-digit county number and the 6-digit census tract number.
6. Print and retain this document for your files.

For more information on CIMS or AMIS, contact the CDFI Fund's IT Help Desk by email at IThelpdesk@cdfi.treas.gov or by phone at (202) 653-0300. A CIMS [tutorial](#) is also available on the CDFI Fund's website.

66. Why do I get a different census tract location when I map the same address at a later date? How will the CDFI Fund handle such differences?

The address geo-coding system used by CIMS is updated periodically to provide more accurate street address locations. As such, some addresses that were mapped prior to a system upgrade may no longer appear in the same census tract. In the event of such an occurrence, the CDFI Fund will accept the previously mapped results provided that the CDE maintains documentation (e.g., CIMS maps) demonstrating the location was previously in an eligible census tract.

67. What data should be used to determine qualifying census tracts?

As of September 1, 2023 Allocatees can use the [2016-2020 American Community Survey \(ACS\) eligibility data](#) to determine if QLICs are located in NMTC-eligible Low-Income Communities. This data is currently available in CIMS. The CDFI Fund released updated Island Area data as of December 19, 2023, available in Excel on the CDFI Fund website and in CIMS as of January 25, 2024. More details on this transition are provided in the [2016-2020 American Community Survey Data FAQs](#) available on the CDFI Fund's website.

F. CDE Certification

68. Am I required to notify the CDFI Fund if a certified CDE has been dissolved?

Yes. The CDFI Fund considers the dissolution of a certified CDE as a material event to the extent that it finalized a QEI or is enjoined to an active Allocation Agreement. The CDFI Fund has deployed an electronic portal in AMIS to assist Allocatees in reporting on the dissolution of a Subsidiary Allocatee or the termination of NMTC activities for a Subsidiary Allocatee. In circumstances where the CDE is a Subsidiary Allocatee and has submitted a request for the CDFI Fund to acknowledge its dissolution, submission of dissolution notification via the Sub-CDE Dissolution Report portal is acceptable in lieu of the submission of a Material Event form. A [user guide](#) is available on the CDFI Fund's website.

If the dissolved CDE was not an Allocatee or Subsidiary Allocatee, the Authorized Representative must contact the Office of Certification, Compliance Monitoring and Evaluation via the CDFI Fund's AMIS and provide the name, certification control number of the dissolved CDE.

69. How will an Allocatee maintain their CDE Certification status?

An Allocatee will be required to certify on an annual basis that they continue to meet the CDFI Fund's CDE certification requirements. The certification will be completed electronically at the time the Allocatee submits its reports. If the Allocatee has transferred any portion of its allocation to a Subsidiary Allocatee, the Allocatee will be required to certify on behalf of the Subsidiary Allocatee as well.

Should the Allocatee (or any of its Subsidiary Allocatees) no longer meet the CDE certification requirements at any time, it must inform the CDFI Fund of such a Material Event as required under Section 6.9 of the Allocation Agreement. If the CDFI Fund determines that an Allocatee (or any of its Subsidiary Allocatees) can no longer meet the CDE certification requirements, it will be found in default and an event of recapture declared.

70. Does the CDE certification have an expiration date?

A CDE's designation will last for the life of the organization, provided the CDE continues to comply with the NMTC Program requirements. The CDFI Fund may require each CDE, on an annual basis, to certify to the CDFI Fund that it continues to meet its primary mission and accountability requirements.

An entity that is a certified CDFI or Small Business Investment Company (SSBIC) will be deemed to automatically meet the requirements for CDE certification and will be certified as a CDE on the basis of its CDFI or SSBIC certification. However, once so certified, the CDE's certification is no longer dependent on

its CDFI or SSBIC certification, but rather is dependent on continuously meeting the qualifications for certification as a CDE, as described above.

If a CDFI is decertified for failure to demonstrate that it meets the criteria of legal entity, primary mission, and/or accountability, and upon the determination by CDFI Fund staff that the failure to demonstrate these CDFI certification criteria affects the entity's ability to meet corresponding criteria required for its CDE certification, the CDFI Fund will notify the CDE of that determination and provide a period of 60 days to submit a new application for CDE certification.

Unless and until the CDFI Fund has made a final determination of the CDE's continued compliance with CDE certification requirements under the NMTC Program, the CDE certification remains in full force and effect. Under these circumstances, the entity will be decertified as a CDE only if: (1) it fails to submit a new application for CDE certification within the 60-day time period prescribed by the CDFI Fund; or (2) the new application for CDE certification is determined by the CDFI Fund not to demonstrate that the entity meets the criteria for CDE certification.

Should a CDE desire to relinquish its certification, it should provide a written notice via a Service Request in AMIS.

71. If a CDE loses its status as a CDE, will it be offered an opportunity for a cure period?

Yes. The loss of CDE certification is an Event of Default and the Allocation Agreement provides for a cure period, not to exceed 90 days. Loss of CDE certification is also an event of recapture.

G. Amendments

72. Can an Allocatee request an amendment to its Allocation Agreement?

Yes. An Allocatee may request an amendment to its Allocation Agreement by submitting a request to the CDFI Fund. The request, at a minimum, must:

1. Identify the name and control number of the Allocatee;
2. Identify the portion(s) of the Allocation Agreement that need to be modified;
3. State the reasons why the Allocatee is making the request; and
4. Explain the extent to which the proposed modifications are consistent with what the Allocatee had proposed in its initial application to the CDFI Fund and will help to further the goals of the NMTC Program.

The request can be submitted via the CDFI Fund's AMIS. Justification for approving an amendment to an Allocation Agreement includes but is not limited to a determination that the amendment request is:

1. Consistent with the intent of the NMTC Program statute and regulations and furthers the goals of the NMTC Program;
2. Consistent with (or not a substantive departure from) the business strategy proposed in the initial application for an allocation; and
3. Sufficiently narrow in scope that it does not disadvantage other Allocatees or other applicants from the same allocation round.

While an amendment request can be submitted at any time, it must be submitted no later than 90 calendar days before the Allocatee needs the determination. The amendment can be submitted via the CDFI Fund's AMIS. Once processed, the Allocatee will receive a letter amendment which will need to be counter-executed and returned to the CDFI Fund.

73. How can Allocatees add additional Subsidiary Allocatees to Section 3.2?

Step 1: If the proposed entities have not yet been certified as CDEs, the Allocatee MUST first submit a CDE certification application on behalf of the non-certified entities. Without CDE Certification, the Allocatee will NOT be able to add these Subsidiaries to its Allocation Agreement. The Allocatee must submit its CDE Certification application for the certification of Subsidiaries through the CDFI Fund's AMIS. **Please be aware that obtaining a certification decision could take up to 90 days.**

Step 2: Once the Subsidiaries have been certified, the Allocatee must submit an [amendment request](#) via the CDFI Fund's Awards Management Information System (AMIS) by first creating a Service Request, identifying the Allocation Agreement to be amended and setting "Amendment Type" equal to "Sub-CDE Enjoinder." The Allocatee can then create an amendment and identify specific Subsidiaries-CDE to be enjoined.

The amendment must include a draft Legal Opinion. The legal opinion format should be similar to that used when the original Allocation Agreement was executed but may be limited solely to the new Subsidiaries. The legal opinion should also contain language confirming that the Allocatee Controls the Subsidiaries including having a controlling influence over the investment decisions of the Subsidiaries. For more information concerning this provision, please refer to applicable section of this document.

Once processed, the Allocatee will receive a letter amendment which will need to be counter-executed and returned to the CDFI Fund along with the final legal opinion. Upon receipt of these counter-executed documents, the CDFI Fund will enter an Effective Date for the amendment and return a copy to the Allocatee. **Please be aware that enjoining a certified CDE to an Allocation Agreement could take up to 30 days.**

74. Can a CDE amend the Service Area stipulated in the Allocation Agreement?

Allocatee and their Subsidiary Allocatees are required to make substantially all of their QLICs in areas for which they are certified to serve and are deemed accountable to, as specified in the applicable Allocation Agreement. Before an Allocatee can request an amendment to the Service Area identified in Section 3.2(b) of the Allocation Agreement, the Allocatee must first [amend](#) its CDE certification service area. The Allocation Agreement reflects the Service Area of the Allocatee only and not the Subsidiary Allocatees.

Requests to amend an Allocatee's CDE certification service areas must be submitted through the CDFI Fund's AMIS system, which is available on the CDFI Fund website. The CDFI Fund accepts CDE certification service area amendment requests on an ongoing basis.

After receiving notification that the CDE's certification service area has been successfully amended, an Allocatee may request a Service Area amendment to their Allocation Agreement through the process described in this document. Please note that approval of a change to a CDE's certification service area is no guarantee that it will also be approved as an addition to the Service Area listed in Section 3.2 (b) of the Allocation Agreement.

H. Controlling Entities, Control of Allocatees and Subsidiary Allocatees.

75. Are New Markets Tax Credit Program (NMTc) allocation recipients (Allocatees) permitted to transfer their tax credit authority to other entities?

Yes. Allocatees may transfer all or a portion of their allocation authority to subsidiary entities (Subsidiary Allocatees), provided that each such subsidiary:

- i. Has been certified as a qualified CDE by the CDFI Fund;
- ii. Is enjoined as a Subsidiary Allocatee to an Allocation Agreement, either at the time of initial execution or through a subsequent amendment; and is “controlled” (as defined in the Allocation Agreement) by the Allocatee at all times throughout the term of the Allocation Agreement.

76. How does the CDFI Fund define “Control,” for the purpose of demonstrating that an Allocatee controls a subsidiary entity?

The CDFI Fund defines “Control” as:

- (a) Ownership, control or power to vote more than 50% of the outstanding shares of any class of Voting Securities of any entity, directly or indirectly or acting through one or more other persons; or
- (b) Control in any manner over the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of any other entity; or
- (c) Power to exercise, directly or indirectly, a controlling influence over the management policies or investment decisions of another entity, as determined by the CDFI Fund.

An Allocatee demonstrates Control of a subsidiary entity by meeting any one of these three criteria. An Allocatee does not have to satisfy all three criteria in order to be deemed to Control a subsidiary entity.

Notwithstanding the above, beginning with the CY 2005 Allocatees, the CDFI Fund requires that in order for an Allocatee to transfer its allocation authority to a Subsidiary Allocatee, the Allocatee must demonstrate, at a minimum, that it exercises and will maintain a controlling influence over the investment decisions of the Subsidiary Allocatee.

77. If an Allocatee designated a Controlling Entity in its NMTC Allocation Application for the purpose of demonstrating a track record, is the Controlling Entity required to maintain control during the entire NMTC term of the Allocation Agreement?

Beginning with the CY 2013 round, the entity that is designated as the Controlling Entity in the Allocatee's NMTC Allocation Application must continue to serve in that capacity throughout the term of the Allocation Agreement with the CDFI Fund, unless otherwise approved in writing by the CDFI Fund via an amendment request.

The requirement of the Allocatee to maintain the same Controlling Entity does not apply in situations where there is a merger, acquisition, bankruptcy, or similar legal actions. However, the Allocatee must notify the CDFI Fund of any change to the designated Controlling Entity via a Material Event submission. In addition, the Allocatee may only replace its Controlling Entity with the organization that will Control the Allocatee as a result of such action. Please note that the CDFI Fund does not consider common control transactions (e.g., when there is no change in control of the net assets by an Affiliated entity) to be a merger, acquisition or similar reorganization. The steps to replace a Controlling Entity in the case of merger, acquisition, bankruptcy, or similar legal actions are different from those to remove a Controlling Entity. Please see Questions 76 and 77 below relating to procedures for requesting removal of a Controlling Entity.

78. Can a Controlling Entity be removed from an Allocation Agreement?

An Allocatee may request that the CDFI Fund amend its Allocation Agreement to remove its Controlling Entity in cases where there is not a merger or acquisition. In order for the CDFI Fund to consider this type of amendment request, the Allocatee must demonstrate that:

- i) It has been five (5) years since the Allocatee issued 100 percent of its Qualified Equity Investments (QEIs) pursuant to the Allocatee's first Allocation Agreement in or after the CY 2013 round; and the Allocatee has used at least the designated percent of the total dollar amount of those QEIs, as listed in Section 3.2(j) of that Allocation Agreement, to make QLICs.
- ii) It has not received a notification of default on any of its Allocation Agreements for the five years immediately preceding the date of the request to remove the Controlling Entity.
- iii) It is financially and operationally self-sufficient, i.e., that it has sufficient net assets and projected revenues to cover its operations for the remaining compliance period of its first Allocation on or after the CY 2013 round and has the necessary resources and personnel to carry out its existing Allocation awards.

The CDFI Fund may consider an Allocatee's request to remove the Controlling Entity before the five-year mark under extreme circumstances. For example, the Controlling Entity faces regulatory or legal proceedings that render the Controlling Entity's continued involvement detrimental to the Allocatee's ability to carry out the activities as required by its NMTC Allocation Agreement. Under these circumstances, the Allocatee must not have received a final notification of default on any of its Allocation Agreements in the five years immediately preceding the date of the request to remove the Controlling Entity.

79. Procedures for requesting an amendment to remove the designated Controlling Entity?

To request an amendment to the designated Controlling Entity, the Allocatee must provide a written request on its letterhead, signed by the Authorized Representative and Controlling Entity Representative, and submitted using an AMIS service request. The amendment request must also include:

1. The Allocatee's and Controlling Entity's audited financial statements for the last three (3) completed fiscal years.
2. The Allocatee's unaudited financial statements for the current fiscal year.
3. Operating agreements between the Controlling Entity and the Allocatee, or other documents noting current operational and financial responsibilities between the Allocatee and the Controlling Entity.
4. Updates to the organizational chart as well as updates to Management Capacity Table C2 of the last submitted Allocation Application, including any personnel from the Controlling Entity that will or will not remain with the Allocatee.

80. What are the requirements to be a Controlling Entity?

For Allocatees in the CY 2013 through CY 2020 rounds, a Controlling Entity must Control the Allocatee at the time of the Allocation Application and throughout the term of the Allocation Agreement, including continuously maintaining a controlling influence over the management policies, and day-to-day management and operations (including investment decisions) of the Allocatee, as determined by the CDFI Fund.

Beginning with the CY 2021 Allocation Round, for Allocatees that have not previously been awarded an Allocation in CY 2013–CY 2020, a Controlling Entity must, at the time of Allocation Application and throughout the term of the Allocation Agreement, meet the following requirements:

- a) Controlling Entities for For-profit CDEs must demonstrate:
 - (i) Ownership, control, or power to vote more than 50% of membership interests or the outstanding shares of any class of voting securities of the CDE; and
 - (ii) Control in any manner over the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of the CDE, including control over the appointment and removal of the CDE's Executive management team (e.g., CEO, COO, CFO); and
 - (iii) Approval authority over the management policies and investment decisions of the CDE as explicitly established in organizational documents (e.g., articles of incorporation, operating agreements and/or bylaws)
- b) Controlling Entities for Not-for-profit CDEs must demonstrate:
 - (i) Control in any manner over the election of a majority of the directors, trustees, or general partners (or individuals exercising similar functions) of the CDE, including control over the appointment and removal of the CDE's Executive management team (e.g., CEO, COO, CFO); and
 - (ii) Approval authority over the management policies and investment decisions of the CDE as explicitly established in organizational documents (e.g., articles of incorporation, operating agreements, and/or bylaws).

81. What does the CDFI Fund deem to be a “controlling influence over the management policies” of another entity?

In order to demonstrate a controlling influence over the management policies of an Allocatee/Subsidiary Allocatee, an entity must be, at a minimum:

- a) Identified in all appropriate organizational documents as the managing entity of the Allocatee/Subsidiary Allocatee (e.g., the general partner, managing partner, managing member or similar managing entity of the Allocatee/Subsidiary Allocatee);
- b) At all times be in principal control over the day-to-day operations of the Allocatee/Subsidiary Allocatee, and no other parties (including investors) may impose unreasonable limitations on the rights and privileges of the entity to carry out such general management functions or undermine the entity's control over the management of the Allocatee/Subsidiary Allocatee. The entity may enter into contracts with other entities to perform general management functions (e.g., underwriting transactions; compliance and monitoring), but the entity must retain the authority to

remove the contracted parties with or without cause. Some indicia of management control include, but not limited, the authority to:

- i. Make all material decisions affecting the business and affairs of the Allocatee/Subsidiary Allocatee;
- ii. Act for and bind the Allocatee/Subsidiary Allocatee and to operate and administer the business;
- iii. Make strategic, governance, and contract decisions;
- iv. Establish all policies governing operations of the Allocatee/Subsidiary Allocatee;
- v. Acquire and dispose of interests in real or personal property;
- vi. Establish and maintain bank accounts;
- vii. Employ and terminate all officers, employees, consultants, and agents of the Allocatee/Subsidiary Allocatee; and
- viii. Exercise responsibility for business development, raising capital, underwriting, portfolio monitoring, reporting and compliance.

The existence of any one of these indicia, by itself, will not necessarily meet the management control test. Instead, when making a control determination the CDFI Fund will evaluate the totality of all of the facts and circumstances in each particular matter, including the existence of the factors listed above.

Please also note that there are certain factors that may amount to an unreasonable limitation on an entity's management control, which include, but are not limited to:

- i. A prohibition on the sale, disposition or transfer of any assets of the Allocatee/Subsidiary Allocatee;
- ii. A prohibition on entering into contracts valued above an unreasonably low threshold (e.g., \$5,000); or
- iii. The hiring of agents/organizations controlled by investors in the Allocatee/Subsidiary Allocatee.

The existence of any one of these factors could result in a determination that the entity does not have management control over an Allocatee/Subsidiary Allocatee.

82. What does the CDFI Fund deem to be a “controlling influence over the investment decisions” of another entity?
--

In order to demonstrate a controlling influence over the investment decisions of an Allocatee/Subsidiary Allocatee, an entity must, at a minimum, have the authority to propose potential NMTC investments and

the authority to approve all proposed transactions involving the use of NMTC proceeds. In other words, at no time can a QLICI be made without the authorization of the entity. This rule applies to initial NMTC investments as well as re-investments of NMTC proceeds that occur during the seven-year compliance period. The entity's approval authority may be either explicit (e.g., the operating agreement clearly states the approval rights) or implicit (e.g., the final investment decision authority rests with an investment committee, the majority of whose members are appointed by the entity and are not affiliated with the investor).

An entity may share its control of the investment decisions with an investor (e.g., both parties have the right to veto a proposed investment transaction), provided that the investor does not exercise undue influence over the decision-making authority of the entity. The CDFI Fund would likely determine that undue influence exists in situations where, for example: (a) the Allocatee/Subsidiary Allocatee is required to decide on an investment proposed by the investor within an unreasonable amount of time (i.e., less than 30 days); or (b) the investor can stop the payment of management fees or other contractual payments to the Allocatee/Subsidiary Allocatee if the Allocatee/Subsidiary Allocatee does not approve an investment proposed by the investor.

83. Will the CDFI Fund review operating agreements submitted by Allocatees to determine whether they “control” Subsidiary Allocatees?
--

The CDFI Fund no longer requires Allocatees, as a matter of course, to submit such documentation in advance of executing or amending Allocation Agreements. The CDFI Fund reserves the right, however, to request such documentation from Allocatees at any time, and will likely do so as part of its compliance and monitoring procedures. Allocatees may also be required to submit certifications confirming their control of Subsidiary Allocatee as part of annual reporting requirements. Allocatees are therefore advised to follow the guidelines contained in this document to ensure that they maintain sufficient control over their Subsidiary Allocatee.

The CDFI Fund will also require that Allocatees obtain legal opinions which confirm that they control their Subsidiary Allocatees both at the time of initial closing of the Allocation Agreement and at the time of any subsequent amendments.

The CDFI Fund will not review operating agreements submitted voluntarily by Allocatees or investors that wish to obtain control determinations from the CDFI Fund.

NOTE: The CDFI Fund has the discretion to consider additional factors when determining the extent to which an Allocatee demonstrates control over its Subsidiary Allocatees.

84. How does the CDFI Fund view investor rights to remove the Allocatee as the managing entity of the Subsidiary Allocatee?
--

The CDFI Fund is aware that many operating agreements for Subsidiary Allocatees may afford investors with the right to remove a managing entity for malfeasance or negligence. However, if such removal rights include: (a) the right to remove the managing entity without cause or (b) the right to remove the managing entity for violation of any provision of the operating agreement or any misconduct or breach of contractual obligations which does not have a material adverse effect on the business of the entity, the CDFI Fund could determine that the Allocatee does not have management control over its Subsidiary Allocatee. In addition, if the investor decides to exercise its removal rights and, as a result, the Allocatee no longer has any control over its Subsidiary Allocatee, the CDFI Fund may determine that such occurrence is an event of default under the terms of the Allocation Agreement and the CDFI Fund has the discretion to impose any or all of the remedies contained in the Allocation Agreement.

NOTE: The CDFI Fund has the right to approve all successors of the Allocatee's interests as a party to the Allocation Agreement (see Section 9.4 of the Allocation Agreement).

I. Contacting the CDFI Fund's Compliance Unit

85. How to contact the CDFI Fund's Office of Compliance Monitoring and Evaluation?

Helpline: (202) 653-0423
Email: ccme@cdfi.treas.gov
Fax: (202) 508-0086
Mail: U.S. Department of the Treasury
Community Development Financial Institutions Fund
Attention: Compliance Monitoring and Evaluation
1500 Pennsylvania Avenue, NW
Washington, DC 20220

In addition, the CDFI Fund's AMIS has a Service Request function that allows users to make general inquiries and/or request specific changes. This function facilitates smooth communication between Allocatees and CDFI Fund staff. Allocatees can track issues or requests that have been submitted to the CDFI Fund and their resolutions in a central area. For AMIS IT support, please contact AMIS@cdfi.treas.gov or (202) 653-0422.
