THE NEW MARKETS TAX CREDIT PROGRAM

The New Markets Tax Credit Program (NMTC Program) helps economically distressed communities attract private investment capital. This federal tax credit helps to fill project financing gaps by enabling investors to make larger investments than would otherwise be possible. Communities benefit from the jobs associated with these investments, as well as greater access to public facilities, goods, and services such as manufacturing, food, retail, housing, health, technology, energy, education, and childcare.

“The New Markets Tax Credit Program creates jobs and critical investments in low-income neighborhoods and rural communities across the nation. Often the New Markets Tax Credit is the most critical piece of the puzzle when trying to finance important economic development projects across the country. Its ability to attract private-sector capital into some of the most economically distressed and underserved communities is a hallmark of this important economic development program.”

AMIAS GERETY, TREASURY ACTING ASSISTANT
SECRETARY FOR FINANCIAL INSTITUTIONS

Through the NMTC Program, the CDFI Fund allocates tax credit authority to Community Development Entities (CDEs) through a competitive application process. CDEs are financial intermediaries through which investment capital flows from an investor to a qualified business located in a low-income community. CDEs use their authority to offer tax credits to investors in exchange for equity in the CDE. With these capital investments, CDEs can make loans and investments to businesses operating in distressed areas that have better rates and terms and more flexible features than the market. The NMTC Program helps to offset the perceived or real risk of investing in distressed and low-income communities. In exchange for investing in CDEs, investors claim a tax credit worth 39 percent of their original CDE equity stake, which is claimed over a seven-year period. In addition to receiving a tax benefit, investors have the advantage of entering new, unsaturated markets before their competitors, thereby increasing their chances of success. The NMTC Program enables investors to gain recognition for supporting the revitalization of America’s communities.

NMTC PROGRAM HISTORY:

- In the 11 rounds to date, the CDFI Fund has made 836 allocation awards totaling \$40 billion in tax credit authority, including \$3 billion in Recovery Act awards and \$1 billion that was specifically set aside for recovery and redevelopment in the wake of Hurricane Katrina.
- \$31.1 billion in New Markets Tax Credits have been invested in low-income communities since the program’s inception through FY 2012.

IMPACT OF NMTC PROGRAM:

For every \$1 invested by the federal government, **the NMTC Program generates over \$8** of private investment.

Since its inception, **the NMTC Program has created or retained an estimated 561,873 jobs.***

It has also supported the construction of 22 million square feet of manufacturing space, 71.9 million square feet of office space, and 55.3 million square feet of retail space.

The IRS’s NMTC Program regulations generally require that at least 85 percent of QEI proceeds be invested in Qualified Low-Income Community Investments (QLICs). All 87 of the 2013 allocatees indicated that they would invest at least 95 percent of QEI dollars into QLICs. In real dollars, this means **at least \$456 million** above and beyond what is minimally required by the NMTC Program will be **invested in low-income communities**.

KEY HIGHLIGHTS:

APPLICANTS VS. ALLOCATEES

310 CDEs applied for allocations, requesting a total of approximately \$25.9 billion in allocations. The CDFI Fund made allocation awards totaling \$3.501 billion*, or about 13.5 percent of the total amount requested by applicants, to 87 CDEs (or 28 percent of the total applicant pool).

MINORITY-OWNED OR CONTROLLED ENTITIES

7 of the allocatees (or 8 percent) are minority-owned or controlled entities. They received allocations totaling \$253 million.

ECONOMICALLY DISTRESSED COMMUNITIES

All 87 of the allocatees committed to providing at least 75 percent of their investments in areas characterized by: 1) multiple indicia of distress; 2) significantly greater indicia of distress than required by NMTC Program rules; or 3) high unemployment rates.

RURAL COMMUNITIES**

12 allocatees met the criteria for "Rural CDE" designation. These 12 Rural CDEs received allocations totaling \$540 million. 38 allocatees (or about 44 percent) will be required to deploy some or all of their investments in non-metropolitan counties; totaling approximately \$684 million, or 19.9 percent of the QLICs to be made with this allocation round.

INITIATIVES SECTION:

While there was no specific set-aside of tax credits for healthy food financing in the 2013 NMTC allocation round, applicants were asked to indicate if they intend to devote a percentage of their allocation to Healthy Food Financing activities. 61 of the 87 allocatees (or 70.1 percent) indicated that they intend to devote some portion of their NMTC allocation to Healthy Food Financing activities.

*The American Taxpayer Relief Act of 2013 provided \$3.5 billion in allocation authority for the CY 2013 Round. In addition to the \$3.5 billion, the NMTC Program allocated \$1,392,113 of unused, rescinded, or surrendered allocation authority from prior rounds.

**For further information, see the 2013 Notice of Allocation Authority.
